The Law In Action:

Criminal Law in Action William J. Chambliss, 1975 *Law in Action* , **The Rule of Law in Action in Democratic Athens** Edward M. Harris, 2013-10-08 The Rule of Law in Action in Democratic Athens examines how the Athenians attempted to enforce and apply the law when judging disputes in court Recent scholarship has paid considerable attention to the practice and execution of Greek law However much of this work has left several flawed assumptions unchallenged such as that Athenian law was primarily concerned with procedure that the main task of enforcement lay in the hands of private citizens that the Athenians used the courts not to uphold the law but to pursue personal feuds and that the Athenian courts rendered ad hoc judgments and paid little attention to the letter of the law Drawing on modern legal theory the author examines the nature of open texture in Athenian law and reveals that the Athenians were much more sophisticated in their approach to law than many modern scholars have assumed and thus breaks considerable new ground in the field At the same time the book studies the weaknesses of the Athenian legal system and how they contributed to Athens defeat in the Peloponnesian War By reexamining the available evidence Edward Harris provides a much needed corrective to long held views and places the Athenian administration of justice in its broad political and social context [Legal Realism to Law in Action](#) William Clune, 2021-12-16 This is a book of papers and interviews about innovative law school courses developed by faculty of the Wisconsin Law School from 1950 to 1970 that forged a path from legal realism to law and social science These courses took a law in action approach to the study of law which became a signature feature of the school s tradition from that time to the present day The Legal Realists of the 1920s and 30s taught that the law that mattered was the law in action as applied by ordinary officials and experienced by ordinary people But they mostly failed to get their program adopted as part of professional education alongside the study of appellate cases Only at Wisconsin thanks to a cluster of great scholar teachers in Willard Hurst Frank Remington Herman Goldstein Stewart Macaulay Bill Whitford and their collaborators has the Realist vision been fully and splendidly realized in law teaching This is the story of that thrilling experiment Robert W Gordon Professor of Law Emeritus Stanford University Chancellor Kent Professor Emeritus of Law and Legal History Yale Law School This book is a must read for anyone interested in the history of the law and society movement and the unique role that the University of Wisconsin Law School has played in that tradition In a series of essays by and interviews of current and former Wisconsin law teachers the creativity of Wisconsin s challenge to the traditional legal academy comes alive Lauren Edelman Agnes Roddy Robb Professor of Law and Professor of Sociology University of California Berkeley In a time when an increasing number of law schools characterize themselves as bastions of law in action this volume provides a bracing reminder of a more precise vision That vision was rooted in the legal realist tradition during an earlier golden age of sociolegal thought at the University of Wisconsin Law School In this important book we hear vivid accounts of the innovative law teaching during that time which took realist discoveries seriously in Contracts Legal Process Legal History and Criminal

Secured Finance Law in China and Hong Kong Mark Williams, Haitian Lu, Chin Aun Ong, 2010-10-14 This book examines systematically the current systems of secured lending in China and Hong Kong where companies or individuals offer personal property as security for credit advanced by a lender Valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower However the Hong Kong system being largely derived from English law is highly complex and in need of root and branch reform The forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered In China on the other hand a completely new system has been created in the last twenty years which whilst it has various problems and defects has some notable advantages over the common law equivalent found in Hong Kong
