*The Intimate Connection* Roger Goffeney,2010-11-14 In many areas of the world intimacy is a constant way of life They often feel a sense of intimacy even while washing their dishes or feeding their pets Teachers also feel a sense of intimacy with their students for the students are teaching the teacher while listening to the words And especially is it true when they are intimate with their partner in this life experience Yet this intimacy is not what is promoted by common advertising or any of the media It is much more It is a fuller sense of belonging that has no barriers created by saying I am different from you therefore I will treat you differently than you deserve Our bonding is based on higher principles of recognizing our common origins in the worlds beyond this one We worship many material gods that keep us from a sense of intimacy This is unfortunate How can you connect with another if what you perceive is based on material possessions or relationships Success in this life is not founded on how much I have gained materially but what I have learned to become intimately The intimate life or what will be called in this book the intimate self is a spiritual experience though you

are free to call it by any other name if you are uncomfortable with that term It could even be called a religious experience if by that term you steer yourself away from dogmas or creeds In this little guidebook I m going to present in Parts 1 and 2 some ideas on the intimate approach to life and love in Parts 3 and 4 some of the elements that make up the intimate self and at length in Parts 5 and 6 a closer look at the various elements where the intimate self deals with the common problems facing most of us Finally in Part 7 will be found an example of an intimate experience with the various elements recommended for a successful intimate experience This last section may not be for everyone absorbing the material in this book It is offered merely as a possible scenario for those who are seeking a greater depth in their relationship

*Enchanted Love* Marianne Williamson,2013-12-17 Three of Marianne Williamson s previous bestsellers *A Return to Love* *A Woman s Worth* and *Illuminata* explored the issue of relationships Now in this deeply personal collection of essays prayers and self reflection she turns to romantic love In *Illuminata* Williamson wrote that we experience God to the extent to which we love forgive and focus on the good in others and ourselves Now in *Enchanted Love* she writes that enchanted partnership begins with the conscious understanding on the part of two people that the purpose of their relationship is not so much material as spiritual and the internal skills demanded by it are prodigious High romance she says is not about past or future It is not about practicality It is not about society or worldly routines It is an audacious ride to the center of what is at the heart of every person It is a bold and masterful inquiry into what two people really are and how we might become while still on earth the angels who reside within us

**How to Build an Intimate Relationship** Julia Blest, 2017-02-06 Intimacy is what many people are seeking when they get into a relationship especially with the opposite sex Unfortunately many of those who get into such relationships do not understand and appreciate that having intimacy in a relationship depends on whether you are knowledgeable about certain principles that govern true intimacy and whether or not you are willing to live by them Many people mistakenly think that experiencing intimacy in a relationship is something they can stumble upon or something that develops simply because they desire it Nothing is further from the truth Intimacy is something you consciously build towards by applying the principles that govern its birth growth and maturity The search for intimacy in relationships has left many heartbroken and disillusioned with many concluding that intimacy is something that only exists in soap operas and romance novels Many unanswered questions linger in the hearts and minds of people whether true intimacy can be experienced in a relationship The doubt in the masses is understandable when you consider the many dysfunctional homes many people have come from There was no modeling of true intimacy between parents Some parents decided to stay together not because they loved each other any more but because of their children or because they would lose much more if the society they were staying in discovered they were no longer together Having come from dysfunctional homes or having witnessed dysfunctional homes many ask themselves Is there any hope for those in the twenty first century to build and have a lasting fulfilling and intimate relationship with one partner Is there any hope for intimacy when husband and wife separate on their first night of marriage after a colorful wedding The answers to these questions will largely depend on where we turn to for principles on building intimate relationships If we turn to the WORLD all we will see and get are the glaring statistics of divorces in our day However if we turn to THE WORD OF GOD we will get sound and lasting wisdom on how to build an intimate relationship that will stand the test of time In seeking instruction and wisdom for establishing intimacy in relationships we will borrow heavily from the books of Genesis and from Songs of Solomon The book of Genesis will give us the foundation for intimate relationships while the book of Songs of Solomon will give us the material for building an intimate relationship The content of this book is targeted to those who hope to have an intimate relationship that will lead to marriage with the opposite sex This book offers great insight for those in courtship while challenging those who are married to re evaluate their relationship I encourage those who are hurt and disillusioned from previous relationships and those seeking an intimate relationship to read this book I believe the book will shed light in the darkness and bring them to the place where they can experience intimacy in their relationships I humbly recommend the contents of this book to those who are in courtship and those who conduct courtship and marriage seminars
