Herman, 2011-01-01 A premier collection of body contouring techniques for a growing patient group. *Encyclopedia of Body Sculpting after Massive Weight Loss* provides uniquely comprehensive coverage of a variety of state-of-the-art surgical body modification procedures for the patient who has overcome obesity. The text begins with an introduction to the particular physiologic and psychological implications of massive weight loss, including the effects on nutrition, anesthesia, pain control, and psychology, and a review of the current techniques utilized in bariatric surgery. The sections that follow feature concise descriptions and full-color illustrations that guide readers through each region of the body, from the face and neck through the breasts, arms, and mid-abdomen to the back and thighs. Expert authors from around the world, many of whom are the innovators of the procedure they describe, offer multiple surgical options for each anatomic region in order to give readers the opportunity to choose the optimal approach for their specific patient. Features: 466 full-color illustrations demonstrate preoperative appearances, operative techniques, and postoperative outcomes. An accompanying DVD contains 17 narrated videos over one hour of footage of actual procedures as performed by the authors. *The 3-Hour Diet* Jorge Cruise, 2011-09-20 It's a fact: the low-carb craze is everywhere. Another fact: two-thirds of Americans are still overweight, and no one is getting thinner. Although low-carb diets produce short-term weight loss, the results are not sustainable in the long term. Dietitians, fitness experts, and medical publications are slowly awakening to the fact that the low-carb diet isn't the answer to weight loss, nor a solution to the obesity epidemic. What is the solution? Jorge Cruise's *THE 3 HOUR DIET* reveals that timing is the revolutionary weight loss element that has been kept secret until now. By eating small, balanced meals every three hours, you reset your body's metabolism and achieve amazing results. Eating every three hours turns off your starvation protection mechanism, ensuring that fat is released and fat-burning muscle preserved. So get ready to lose 2 pounds each week. All with no calorie counting, no starvation, and no deprivation. Bottom line: timing will sculpt your body slim. With his now trademark easy-to-follow instructions, accessibility, and client success stories, Jorge Cruise's *THE 3 HOUR DIET* is a fluid combination of proven success and categorical innovation. Weight loss has never been easier.
