Velikovsky And Establishment Science:

Velikovsky and Establishment Science Lewis Greenberg, Warner B. Sizemore, 1977-01-01 **The Skeptic Encyclopedia of Pseudoscience** Michael Shermer, 2002-11-14 A thorough objective and balanced analysis of the most prominent controversies made in the name of science from the effectiveness of proposed medical treatments to the reality of supernatural claims Edited by Michael Shermer editor and publisher of The Skeptic magazine this truly unique work provides a comprehensive introduction to the most prominent pseudoscientific claims made in the name of science Covering the popular the academic and the bizarre the encyclopedia includes everything from alien abductions to the Bermuda Triangle crop circles Feng Shui and near death experiences Fifty nine brief descriptive summaries and 23 investigations from The Skeptic magazine give skeptical analyses of subjects as far ranging as acupuncture chiropractic and Atlantis The encyclopedia also gives for and against debates on topics such as evolutionary psychology and case studies on topics like police psychics and the medical intuitive Carolyn Myss Finally the volumes include five classic works in the history of science and pseudoscience including the speech William Jennings Bryan never delivered in the Scopes trial and the first scientific and skeptical investigation of a paranormal spiritual phenomenon by Benjamin Franklin and Antoine Lavoisier *Outsider Theory* Jonathan Eburne, 2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown s The Da Vinci Code speculative feminist historiography Marcus Garvey s finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas *Outsider Theory* shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution **On the Fringe: Where Science**

Meets Pseudoscience the fringe where science meets pseudoscience, Princeton University Custom Edition

various,2025-05-29 Oxford University Press custom edition for students at University Princeton only **THE EVOLUTION OF THE GOD ILLUSION** Ir. Jim K K Wong,2012-06-16 As one may have read Cicero in *The Nature Of The Gods* ancient people were vivid observers of the sky and the celestial bodies because of their livelihood they were mostly engaged in agriculture and animal husbandry The cycles of nature and seasons were the most important factors affecting farming civilizations The brilliant stars Jupiter Saturn Venus and the zodiac were also objects of great interest These heavenly bodies were regarded as deities even by learned philosophers Cicero and Socrates had a field day demolishing these strongly held prevailing ideas One popular god illusion of the West and Middle East began with patriarch Abraham who was an astronomer from Mesopotamia He studied Jupiter avidly and could predict its behavior which he used it to his advantage in his migration to the Fertile Crescent and in his encounters with hostile inhabitants Abraham had the delusion that Jupiter Yahweh was a deity who could be depended to assist him in troubled times The Yahweh Delusion was passed down from Abraham to son Isaac and grandson Jacob Jacob s 12 sons migrated to Egypt multiplied and eventually became slaves Moses a pariah Egyptian prince became the rebel leader of the Hebrew slaves when he discovered his roots At the opportune moment c 1450 BCE Venus erupted from unstable fast spinning Red Giant Jupiter and shot into the inner solar system like a billiard ball along a highly elliptical orbit It had several close encounters with Earth Moon and Mars and created stunning phenomena or miracles such as the much exaggerated Ten Plagues parting of the Red Sea the rain of manna apparent stopping of the Earth s rotation and even the destruction of the mighty army of Sennacherib near Jerusalem Moses and his successors apparently knew and could predict more or less unusual celestial phenomena and attributed them to a tribal deity Yahweh who was connected with their deliverance and survival Every successful prediction or expectation resulted in augmenting the god illusion The god illusion evolved through stupendous sagas cross fertilized by neighbors and reformers roughly from 1500 BCE to 500 BCE However the Hebrews had a confused idea of this savior deity and its feminine aspects such as the Celestial Cow giving manna milk In the evolutionary process Yahwist patriarchs literally wrote off the influential Goddess and made Yahweh a lone male god of Judaism and Christianity The underlying motive developing this god illusion is Moses and Israel s covetousness of the fertile Holy Land Moses needed a justification to commit genocide to rob loot destroy and drive out people inhabiting the land of milk and honey The justification is a tribal god of Israelites who gives mandate to his chosen race to rob and steal the Promise Land from evil worshippers of false gods The underlying theory for this god illusion evolution hypothesis is based on Immanuel Velikovsky s bestseller of the 1950s *Worlds in Collision* This hypothesis met fierce opposition in academia and Establishment Science The AAAS Symposium 1974 was convened to address the serious challenge Here the author produces abstracts from various experts in various disciplines of sciences and arts to counter objections to the underlying theory The god illusion presented here is my own interpretation of the psychological impacts and

aspects of these astounding celestial phenomena I am using appropriate knowledge in several disciplines to support my thesis such as radiation chemistry upper atmosphere chemistry and behavioral science My training as a stock analyst to read the underlying environment enables me to read in between the lines to speculate and connect the gaps and dots together and present a satisfying version of the god illusion
