Veni, Vidi, Video Frederick Wasser, 2002-01-15 A funny thing happened on the way to the movies Instead of heading downtown to a first run movie palace or even to a suburban multiplex with the latest high tech projection capabilities many people s first stop is now the neighborhood video store Indeed video rentals and sales today generate more income than either theatrical releases or television reruns of movies This pathfinding book chronicles the rise of home video as a mass medium and the sweeping changes it has caused throughout the film industry since the mid 1970s Frederick Wasser discusses Hollywood s initial hostility to home video which studio heads feared would lead to piracy and declining revenues and shows how paradoxically video revitalized the film industry with huge infusions of cash that financed blockbuster movies and massive marketing campaigns to promote them He also tracks the fallout from the video revolution in everything from changes in film production values to accommodate the small screen to the rise of media conglomerates and the loss of the diversity once provided by smaller studios and independent distributors **Veni, Vidi, Video** Robert S. Greenblatt, 1984

literally changed shape over the centuries In Poetics of the Paranormal Kevin Chabot articulates the idea of spectrality demonstrating how the paranormal is far from a stable metaphysical category it is a dynamic and historically contingent discourse the contours of which shift over time Specific media Chabot argues present the ghost in distinct ways that emphasize the ghostly qualities of the medium and conversely the technological qualities of the ghost Through detailed analyses of nineteenth century spirit photography horror films ghost hunting reality television and the viral internet phenomenon Slender Man Chabot shows how the paranormal both shapes and is shaped by media Exploring key historical shifts in contemporary media while providing a rich and novel theoretical framework Poetics of the Paranormal addresses with renewed rigour the relationships between media perception temporality and the elusive concept of the evidential
