## **Vergil's Italy:**

**Finding Italy** K. F. B. Fletcher, 2014-11-24 The Trojans journey to Italy in Vergil's Aeneid teaches them to love their new homeland and their new name the Romans *Vergil's Italy* Alexander Gordon McKay, 1971 Italy was Vergil's ultimate and abiding love Unjustly deprived of his boyhood home near Mantua in the aftermath of civil war Vergil often reflected wistfully sometimes bitterly on his exile from the Arcadia of his youth Throughout his writings he eulogized his land from the Alps to the southern shores of Sicily Its peoples Greek Etruscan Celtic and Italic are his major concern and his main inspiration For behind the imposing facade of late Republican and Augustan Rome shimmers the reality of a war torn and anarchic Italy crying out desperately for order and renewed productivity The vision of the Golden Age of Paradise lost and regained permeates his writings Foreword **Vergil's Primitive Italy** Catharine Saunders, 1930 My purpose in this monograph has

been to test the accuracy of Vergil's picture of primitive Italy by the results of archaeological exploration and by the testimony of ancient literature Preface *Constructing Communities in Vergil's Aeneid* Tedd A. Wimperis, 2024-01-03 Constructing Communities in Vergil's Aeneid Cultural Memory Identity and Ideology presents a new examination of memory ethnic identity and politics within the fictional world of this Roman epic drawing previously unexplored connections between Vergil's characters settings and narrative and the political context of the early Roman Empire This book investigates how the Aeneid's fictive ethnic communities the Trojans Carthaginians Latins and Arcadians who populate its poetic world are shown to have identities myths and cultural memories of their own And much like their real life Roman counterparts they engage in the politics of the past in such contexts as royal iconography diplomacy public displays and incitements to war Where previous studies of identity and memory in the Aeneid have focused on the poem's constructions of Roman identity Constructing Communities turns the spotlight onto the characters themselves to show how the world inside the poem is replicating as if in miniature real forms of contemporary political and cultural discourse reflecting an historical milieu where appeals to Roman identity were vigorously asserted in political rhetoric The book applies this evidence to a broad literary analysis of the Aeneid as well as a reevaluation of its engagement with Roman imperial ideology in the Age of Augustus

Vergil's Primitive Italy Catharine Saunders, 1930 My purpose in this monograph has been to test the accuracy of Vergil's picture of primitive Italy by the results of archaeological exploration and by the testimony of ancient literature Preface

Vergil's Aeneid Virgil, 2016 Barry Powell acclaimed translator of the Iliad OUP 2013 and the Odyssey OUP 2014 now delivers a graceful lucid free verse translation of the most important books and passages of the Aeneid in a pleasant modern idiom On page notes explain obscure literary and historical references while the rich visual program lightens the text and educates students in the history of Western art by presenting a single topic as represented over 2 000 years The Aeneid's first sentence charts the poem's historical plot taking us in one sweep of seven lines from Homer's Troy to Augustus Rome These two layers of time are felt all the way through the poem from the distant past of Aeneas heroic and quasi mythological

time over 1100 years before Vergil down to the now of Augustus Rome when Vergil was writing the poem between 30 and 19 BC a period of ongoing political experimentation The story of Aeneas moving from one continent to another undergoing and enforcing great transformations in the process transplants contemporary Augustan preoccupations with transition continuity and change into the remote time of the poem's action In the course of the poem we move from the East to the West from Troy to Italy as Aeneas moves from being a Trojan towards being something else a kind of Roman in embryo The poem's migratory movement together with its wholesale assimilation of Homer acts out another great transition the transition of Greek culture to Italy just as the people of ancient Italy become the inheritors of Troy so the people of Vergil's Italy become the inheritors of Greece The very location of the poem in time is transitional at the pivot between myth and history the poem's characters are moving out of the era of Homer into the era of what Vergil would have considered non-fabulous history In all these ways the Aeneid is a great poem of history both as lived experience and as something constructed by people responding to the needs of society

Featuring a stellar up-to-date introduction on page notes embedded illustrations five maps a timeline of Roman history and a genealogical chart Powell's *Vergil's Aeneid: The Essential Books* offers a full immersion into the mythological and political workings of the poem It is a book both good to think with and good to teach with *Vergil's Aeneid 8 & 11* Barbara Weiden Boyd, 2006-01-01 Latin text of 395 lines of the Aeneid 608-731 shield of Aeneas 11 498-596 introduction to Camilla 11 664-835 Camilla's heroism and defeat with same-page vocabulary and notes These passages introduce episodes that can only enrich and deepen appreciation for and understanding of Vergil's poetic project Vergil's description of the scenes on shield presented to the uncomprehending Aeneas and of the heroism and defeat through trickery and misplaced desire of Camilla deemed Italy's ornamnt by Turnus when considered side-by-side invite readers to scrutinize the relationship both strained and intimate between Italy and Rome and to shed light on Vergil's complex understanding of that relationship This edition also includes a glossary of rhetorical terms and figures of speech mentioned in the passages a selected bibliography and a full vocabulary

**Vergil and the Land** Annemarie de Villiers, Stephen Harrison, Grant Parker, 2026-04-14 Since ancient times land has had a defining influence on human culture from the political and the social to the agricultural the metaphysical and the creative In both Augustan Rome and contemporary Southern Africa the land question is ever present in the art and literature which engage with the issues of the day Throughout Vergil's oeuvre land ownership and occupation rights but also care and love for the land and the question of belonging permeate his poetry This collection considers all things Vergil and land whether this relates to soil geography or politics and takes a variety of approaches from ecocriticism philosophy nation-state theory to translation and reception but always with an eye on the contemporary world and the challenges faced both in Southern Africa and in the world at large at a time when conversations about land environment and sustainability have never been more central
