This definitive guide to the literature of women's studies is a must purchase for academic libraries that support women's studies programs and it is a useful addition to any academic or public library that endeavors to represent the field. A team of subject specialists has taken on the immense task of documenting publications in the area of women's studies in the last decades of the 20th century. The result is this truly monumental work which maps the field covering thousands of titles and Web sites in 19 subject areas published between 1985 and 1999. Intended as a reference and collection development tool, this bibliography provides a guide for women's studies information for each title along with a detailed, often evaluative review. The annotations summarize each work's content, its importance or contribution to women's studies, and its relationship to other titles on the subject. Most reviews cite and describe similar and contrasting titles, substantially extending the coverage. Core titles and titles that are out of print are noted, and reviews indicate which titles are appropriate as texts or supplemental texts. Taking up where the previous volume by Loeb, Searing, and Stineman left off, this is the definitive guide to the literature of women's studies. It is a must purchase for academic libraries that support women's studies programs and a welcome addition to any academic or public library that endeavors to represent the field.

**Women's Educational Equity Act Program**, 1987 Ways of Seeing Women's Leadership in Education: Stories, Images, Metaphors, Methods and Theories Kay Fuller, Pontso Moorosi, Victoria Showunmi, Saeeda J. A. Shah, 2022-01-04 Women and Public Life in Early Meiji Japan Mara Patessio, 2020-08-06 *Women and Public Life in Early Meiji Japan* focuses on women's activities in the new public spaces of Meiji Japan. With chapters on public, private, and missionary schools for girls, their students, and teachers; on social and political groups women created; on female employment; and on women's participation in print media, this book offers a new perspective on nineteenth and early twentieth century Japanese history. Women's founding of and participation in conflicting discourses over the value of women in Meiji public life demonstrate that during this period, active and vocal women were everywhere that they did not meekly submit to the dictates of the government and intellectuals over what women could or should do, and that they were fully integrated in the production of Meiji culture. Mara Patessio shows that the study of women is fundamental, not only in order to understand fully the transformations of the Meiji period, but also to understand how later generations of women could successfully move the battle forward. *Women and Public Life in Early Meiji Japan* is essential reading for all students and

teachers of 19th and early 20th century Japanese history and is of interest to scholars of women's history more generally

**Encyclopedia of Christian Education** George Thomas Kurian, Mark A. Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church. As a result, Christian education remains one of the largest and oldest continuously functioning educational systems in the world, comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries. In *The Encyclopedia of Christian Education*, contributors explore the many facets of Christian education in terms of its impact on curriculum, literacy, teacher training, outcomes, and professional standards. This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe, illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy, home schooling, Sunday schools, women's education, graded schools, compulsory education of the deaf and blind, and kindergarten. With an editorial advisory board of more than 30 distinguished scholars and five consulting editors, *The Encyclopedia of Christian Education* contains more than 1,200 entries by 400 contributors from 75 countries. These volumes cover a vast range of topics from Christian education history, spanning from the church's founding through the Middle Ages to the modern day, denominational and institutional profiles, intellectual traditions in Christian education, biblical and theological frameworks, curricula, missions, adolescent and higher education, theological training, and Christian pedagogy. Biographies of distinguished Christian educators. This work is ideal for scholars of both the history of Christianity and education, as well as researchers and students of contemporary Christianity and modern religious education.

**Historical Dictionary of Women's Education in the United States** Linda Eisenmann, 1998-07-17 The history of women's education in the United States presents a continuous effort to move from the periphery to the mainstream, and this book examines both formal and informal opportunities for girls and women. Through an introductory essay and nearly 250 alphabetically arranged entries, this reference book examines institutions, persons, ideas, events, and movements in the history of women's education in the United States. The volume spans the colonial era to the present, exploring settings from formal institutions such as schools and colleges to informal associations such as suffrage groups and reform organizations where women gained skills and used knowledge. A full picture of women's educational history presents their work in mainstream institutions, sex-segregated schools, and informal organizations that served as alternative educational settings. Educational history varies greatly for women of different races, classes, and ethnicities. The experience of some groups has been well documented. Thus, entries on the Seven Sisters women's colleges and the reform organizations of the Progressive Era convey wide historical detail. Other women have been studied only recently. Thus, entries on African American school founders or women teachers present considerable new information that scholars interpret against a wider context. Finally, some women's history has yet to be adequately explored. Hispanic American women and Catholic teaching sisters are discussed in entries that highlight historical questions still remaining.

Each entry is written by an expert contributor and concludes with a brief bibliography The volume closes with a timeline of women s educational history and a list of important general works for further reading

**Straighten Up, Girls and Boys** Jackie M. Blount,2026-04-21 This illuminating read bridges education history with contemporary efforts to create inclusive equitable schools In *Straighten Up Girls and Boys* acclaimed historian and educator Jackie M Blount exposes the hidden history of how American schools have carefully shaped and policed gender and sexuality affecting every student and educator past and present With clarity and compassion she invites readers not only to understand these forces but to take action for positive change in their own school communities Drawing on centuries of school design hiring practices and classroom curriculum Blount uncovers how seemingly neutral decisions from the layout of restrooms to textbooks and teacher roles have been used to enforce binary gender norms and rigid expectations around sexuality She explores the implications for both students and educators highlighting moments of resistance and progress but also the persistence of exclusion and harm Through vivid historical storytelling and fresh analysis Blount connects the dots between age old anxieties and today s most pressing debates around LGBTQ issues in schools This book empowers educators with the knowledge and historical context needed to question entrenched practices and build more supportive school cultures Encouraging both critical reflection and practical action Blount s work is a vital resource for anyone committed to fostering respect and opportunity for every member of the school community
