**The Laughter Trap** Judson Philips, 1965

**Romantic Poets and the Laughter of Feeling** Matthew Ward, 2024-04-05 The Romantic period witnessed decisive interest in how feeling might align with forms of artistic expression Many critical studies have focused on the serious side and melancholic moods of Romantic poets *Romantic Poets and the Laughter of Feeling* instead embraces the sublime and the ridiculous to offer an original and compelling new reading of British Romanticism It reveals the decisive role laughter and the laughable play in Romantic aesthetics emotions and ethics Matthew Ward shows that laughter was one of the primary means by which Romantics embraced and expanded upon but also frequently aped and lampooned sympathetic feeling The laughter of feeling is both the expression of sympathy and an articulation of its implications prejudices and constraints For Romantic poets like Wordsworth Shelley and Keats the sound of laughter carries the hope that greater knowledge of others derives from feeling for and with them through poetry and this might lead to a better understanding of oneself Yet laughter also makes these poets acutely aware that our emotional lives are utterly unfamiliar and perhaps ultimately unknowable Their prosody of laughter enlivens and exposes it embodies their sense of and ambitions for poetry and yet calls those matters into the most comical and gravest doubt Laughter helps define what it is to be human This book shows that it also defines what it is to be a Romantic poet

*Trapped in Thought* Eric P. Levy, 2007-04-17 Eric P Levy s book investigates the mentality or attitude of cognitive apprehension expressed in Beckettian texts Primary areas of concern include how the Beckettian attitude began what concepts it invents or transforms to sustain its mode of thought how the mentality wards off factors which would refute or heal it and most paradoxical of all why this mentality ultimately reduces the mind to an estranged source of thought continuously repudiated by its own awareness The study uncovers the strategies by which experience is evacuated of all content but that consistent with the attitude registering it

*Traps for the Young* Anthony Comstock, 1884

*Microsociology* Thomas J. Scheff, 1990 Moving beyond the traditional boundaries of sociological investigation Thomas J Scheff brings together the study of communication and the social psychology of emotions to explore the microworld of thoughts feelings and moods Drawing on strikingly diverse and rich sources the findings of artificial intelligence and cognitive science and examples from literary dialogues and psychiatric interviews Scheff provides an inventive account of the nature of social life and a theory of

motivation that brilliantly accounts for the immense complexity involved in understanding even the most routine conversation  
A major contribution to some central debates in social theory at the present time What Thomas Scheff seeks to develop is  
essentially a quite novel account of the nature of social life its relation to language and human reflexivity in which he insists  
upon the importance of a theory of emotion A work of true originality and jolting impact Microsociology is of exceptional  
interest which bears witness to the very creativity which it puts at the center of human social contact Anthony Giddens from  
the Foreword Scheff provides a rich theory that can easily generate further exploration And he drives home the message that  
sociological work on interaction social bonds and society cannot ignore human emotionality Candace Clark American Journal  
of Sociology This outstanding and ground breaking little volume contains a wealth of original ideas that bring together many  
insights concerning the relationship of emotion to motivation in a wide variety of social settings It is strongly recommended  
to all serious students of emotion of society and of human nature Melvin R Lansky American Journal of Psychiatry
