Too Little:

Too Little, Too Late Victoria Christopher Murray, 2008-07-15 From the author of *The Personal Librarian* and *A Sin and a Shame* Victoria Christopher Murray returns to Jasmine Larson Bush and her devious ways in this tale of two marriages each threatened by lies and betrayal She took marriage vows to be honest and true but Jasmine's still hiding secrets to keep her husband Minister Hosea Bush by her side When Hosea's ex fiancée Natasia suddenly appears in New York Jasmine knows it's not a coincidence A former man stealer herself Jasmine is very aware of Natasia's motives even if Hosea is not Complicating Jasmine's life is the secret she's kept from her baby's daddy Luckily for her Brian Lewis has problems of his own His wife Alexis is convinced he's cheating on her but Brian's real betrayal is much worse Revealing the truth to his wife could lead him back to the biggest mistake of his life Jasmine Two marriages are in desperate jeopardy Will Jasmine be able to scheme to save her own Or will she have to choose between protecting her past and compromising her future Even if Jasmine and Brian find the courage to stop the lies it may be too little too late *The Gallup Poll* Frank Newport, 2019-01-31 This work is the only complete compilation of polls taken by the Gallup Organization the world's most reliable and widely quoted research firm in calendar year 2016 It is an invaluable tool for ascertaining the pulse of American public opinion as it evolves over the course of a given year and over time documents changing public perceptions of crucial political economic and societal issues It is a necessity for any social science research **Less Is Not Enough** Miriam Meissner, 2026-03-19 *Less Is Not Enough* examines the rise of minimalist self help showing how it depoliticizes middle class frustrations with capitalist exploitation and proposes a cultural strategy to channel minimalist desires into a more radical postgrowth politics In the past decade minimalist self help has exploded from tidying guides to media detoxes which promise to help affluent middle classes navigate a world of excess too much clutter stress and distraction Here Miriam Meissner exposes the limits of minimalism in addressing both middle class overload and the environmental crisis Through a critical analysis of self help books TV shows and online communities she argues that while minimalism is well intended it ultimately distracts from the root causes of the very problems it seeks to alleviate Trends like decluttering and mindfulness depoliticize middle class frustrations with the capitalist exploitation of labour attention and ecology for profit In an era where climate justice and class struggle are inseparable this book proposes an eco political strategy that refuses to pit middle class interests against the demands of a just green transition *Longevity and Quality of Life* Robert N. Butler, Claude Jasmin, 2012-12-06 Nations around the world are experiencing a spectacular increase in longevity Society as a whole is being challenged by issues arising from this revolution in longevity Although the specter of the loneliness and existential suffering of older citizens is such that some people under the age of 65 find it difficult to conceive of a long term future persons over 85 have proven that aging does not necessarily preclude a healthy and productive life Extraordinary progress in both curative and preventive medicine justifies optimism about the quality of life and state of well being that can be enjoyed even in great old age We

should look to professionals in diverse fields to develop creative solutions to the inevitable issues that will arise with aging Governments must prepare for the future health of their citizens by making long term investments to educate all sectors of society in the value of good nutrition exercise and lifestyles that enhance well being throughout life Also governments should realize that the main cause of health care expenditure is serious illness which occurs in persons of all ages and not predominantly in older people Early detection can help save lives as well Health and longevity of life will ultimately end as a political issue What is needed is long term government investments necessary for a viable health policy The question arises will world leaders be able to commit to such a policy Two major socioeconomic phenomena may have a regulating effect on this issue The first is the emergence of pressure groups that have come into being in response to a particular health issue such as AIDS The second is the emergence of ethics committees in developed nations that deal solely with health issues
