Social Capital and Its Institutional Contingency Nan Lin, Yang-chih Fu, Chih-jou Jay Chen, 2013-11-12 This volume is a collection of original studies based on one of the first research programs on comparative analysis of social capital. Data are drawn from national representative samples of the United States, China, and Taiwan. The three societies selected for study allow the examination of how political, economic, regimes, command versus market, and cultural factors, family centrality versus diverse social ties affect the characteristics of social ties and social networks from which resources are accessed and mobilized.

Psychological Type Therapy Brian A. Gerrard, Jacqueline Shinefield, 2022-06-07 This book uses psychological type as a model for organizing mental health interventions, including assessing how a client's personality is affected within a specific relationship using the Psychological Type Relationship Inventory and the Psychological Type Relationship Scale. By examining each psychological type characteristic, the book demonstrates how to help a client overcome a psychological type challenge by using techniques drawn from cognitive behavioral, humanistic, and family therapy approaches. Over 20 techniques are described in explicit detail, and chapters show the reader how to assess both positive personality characteristics as well as negative or challenging personality characteristics in developing therapy plans. The interdisciplinary nature of the text benefits a wide spectrum of mental health practitioners who are interested in incorporating personality into their case conceptualizations to develop more effective interventions in relationship therapy.

Brief Integrated Motivational Intervention Hermine L. Graham, Alex Copello, Max J. Birchwood, Emma Griffith, 2016-08-11
BRIEF INTEGRATED MOTIVATIONAL INTERVENTION: BRIEF INTEGRATED MOTIVATIONAL INTERVENTION A TREATMENT MANUAL FOR CO-OCCURRING MENTAL HEALTH AND SUBSTANCE USE PROBLEMS
Brief Integrated Motivational Intervention provides clinicians and specialist practitioners with a brief, evidence-based treatment approach for motivating clients who have comorbid mental health and alcohol and drug misuse issues. Developed by an expert team with many years of research and practice experience in the fields of psychosis and addiction, this approach combines cognitive behavioural therapy (CBT), motivational interviewing, and the authors' own cognitive behavioural integrated treatment (CBIT). It allows practitioners to engage clients in meaningful dialogue for change during short windows of opportunity following relapses or admittance to psychiatric hospital and helps clients consider the impact of substance misuse on their mental health. Easy to understand and implement, this guide also includes helpful tools for practitioners such as session-specific content, illustrative case material, easy-to-use worksheets, and additional information for family members and friends.
