Stimulated Effects in Josephson Devices Maurizio Russo, Giovanni Costabile, 1990 *Stimulated Effects In Josephson Devices: Proc. Of The Workshop On Nonlinear.., Capri, Sep.27-30, 1988* m Russo, *Superconductivity* A. Bisarsh, 1999 This book consists of over 600 selected descriptions and abstracts of books book chapters patents and journal articles from throughout the world dealing with this high profile topic Each citation contains complete bibliographic data plus key words The entries are grouped under the headings of Theory of Superconductivity Superconducting Devices Superconducting Properties of Materials Applications of Superconductors Author Index Subject Index The New Superconducting Electronics H. Weinstock, Richard W. Ralston, 2012-12-06 This volume is based on the proceedings of the NATO sponsored Advanced Studies Institute ASn on The New Superconducting Electronics held 9 20 August 1992 in Waterville Valley New Hampshire USA The contents herein are intended to provide an update to an earlier volume on the same subject based on a NATO ASI held in 1988 Four years seems a relatively short time interval and our title itself featuring The New Superconducting Electronics may appear somewhat pretentious Nevertheless we feel strongly that the ASI fostered a timely reexamination of the technical progress and application potential of this rapid paced field There are indeed many new avenues for technological innovation which were not envisioned or considered possible four years ago The greatest advances by far have occurred with regard to oxide superconductors the so called high transition temperature superconductors known in short as HTS These advances are mainly in the ability to fabricate both 1 high quality relatively large area films for microwave filters and 2 multilayer device structures principally superconducting normal superconducting SNS Josephson junctions for superconducting quantum interference device SQUID magnetometers Additionally we have seen the invention and development of the flux flow transistor a planar three terminal device During the earlier ASI only the very first HTS films with adequate critical current density had just been fabricated and these were of limited area and had high resistance for microwave current *Integrable Systems and Applications* Mikhael Balabane, 1989 In this volume nonlinear systems related to integrable systems are studied Lectures cover such topics as the application of integrable systems to the description of natural phenomena the elaboration of perturbation theories and the statistical mechanics of ensembles of objects obeying integrable equations The more physical lectures center largely around the three paradigmatic equations Korteweg de Vries Sine Gordon and Nonlinear Schr dinger especially the latter These have long been of great mathematical interest and also exhibit a universality which places them among the most frequently encountered integrable equations in the description of physical systems Tidal waves optical fibers and laser beams are among the topics discussed Lectures are also devoted to multidimensional solitons integrability of Hamiltonian systems of ODEs and dissipative systems of PDEs *Weak Superconductivity* Štefan Beňačka, Š Beňačka, Martin Kedro, 1990 *Weak Superconductivity* **Nuclear Science Abstracts**, 1975 **High Performance Computing** Jean-Loïc Delhaye, Erol Gelenbe, 1989 Bibliographic Guide to Technology New
