## **Technology Management Case Studies In Innovation:**

*Technology Management*, 1992      *Technology Management* Robert Szakonyi, 1992      **IT-Driven Business Models**

Henning Kagermann, Hubert Osterle, John M. Jordan, 2010-11-09 A look at business model innovation's crucial role in today's global business environment. Showing organizations how business model innovation should be a key focus area in today's global economy, this book features cases from businesses around the globe that have developed customized business models and achieved spectacular levels of performance. Case examples from well-known innovation leaders: IKEA, Apple, Tata, SHARP, Saudi Aramco, De Beers, Telefonica, Valero Energy, LEGO, and Procter & Gamble. Shows businesses how to get beyond traditional business models to take better advantage of emerging opportunities. Coauthored by former CEO of SAP AG, the world's largest provider of enterprise software. Filled with interviews with key executives, this book reveals the role of technology in driving and enabling changes to fundamental facets of a business. Companies around the world are innovating their business models with tremendous results. *IT-Driven Business Models* shows interested organizations how they can start the process.

*Technology Management* Dilek Çetindamar, Robert Phaal, 2017-09-16 This is an exciting and innovative core textbook that focuses on the micro-level analysis of TM as a dynamic capability. Now in its second edition and fully updated throughout, it systematically addresses the major tools and techniques needed for businesses to successfully conduct TM activities. Arguing that there is no single best way to manage technology in a company and there is no mechanistic route to success, this accessible handbook provides a wealth of resources designed to increase the dynamic capability of an organisation. Written by a highly experienced team of authors from the Universities of Sabanci and Cambridge, *Technology Management* is the perfect companion for undergraduate and postgraduate students on a variety of business management and engineering degree courses. It is also suitable for practitioners seeking to progress their professional development and industry knowledge.      [Information Technology Management and Organizational Innovations](#) Mehdi Khosrowpour, 1996-01-01

Emerging information technologies of the past few decades are now providing organizations with new tools to develop innovative organizational concepts and applications. This book is a collection of timely research and practical papers on the subject of IT management and its role in organizational innovation.      **Emerging Issues And Trends In Innovation And Technology Management** Alexander Brem, 2021-10-25 This book is a compilation of papers published in *International Journal of Innovation and Technology Management*. The chapters in the book focus on recent developments in the field of innovation and technology management. Carefully selected on the basis of relevance, rigor, and research, the chapters in the book take the readers through various emerging topics and trends in the field. Written in a simple and accessible manner, the chapters in this book will be of interest to academics, practitioners, and general public interested in knowing about emerging trends in innovation and technology management.      **Human-Centred Technology Management for a Sustainable**

**Future** Ricardo Zimmermann, José Coelho Rodrigues, Ana Simoes, Gustavo Dalmarco, 2025-03-26 This proceedings volume

contains selected papers from the 33rd International Association for Management of Technology IAMOT Conference held from July 8-11, 2024 in Porto, Portugal. It is the second volume of a three-volume set of conference proceedings focused on technologies for a sustainable future. The book explores the challenges and opportunities in today's social and business landscapes delving into innovative and disruptive concepts. With a special emphasis on the role of technologies, it sheds light on how they enable novel approaches to address current issues. The volume demonstrates that following the principles of Industry 5.0 technologies can go far beyond productivity and economic gains, contributing to the benefit and comfort of human workers. It also elucidates the necessity of adopting a human-centered approach in utilizing technology to adapt production processes to workers' needs while ensuring that the implementation of new technologies does not infringe upon the fundamental rights of workers.

**Case Studies in Service Innovation** Linda A. Macaulay, Ian Miles, Jennifer Wilby, Yin Leng Tan, Liping Zhao, Babis Theodoulidis, 2012-05-02. Case Studies in Service Innovation provides the reader with fresh insight into how innovation occurs in practice and stimulates learning from one context to another. The volume brings together contributions from researchers and practitioners in a celebration of achievements with the intention of adding to the wider understanding of how service innovation develops. Each case presents a brief description of the context in which the innovation occurred, the opportunity that led to the innovation, and an overview of the innovation itself, also addressing how success was measured, what success has been achieved to date, and providing links to further information. The book is organized around five major themes, each reflecting recognized sources of service innovation: Business Model Innovation (new ways of creating, delivering, or capturing economic, social, environmental, and other types of value); The Organization in its Environment (an organization engaging beyond its own boundaries with public-private partnerships, sourcing knowledge externally, innovation networks, and open or distributed innovation); Innovation Management within an Organization (an organization actively encouraging innovation within its own boundaries using project teams, internal governance of innovation, and methods or tools that stimulate innovation); Process Innovation (changes in service design and delivery processes such as consumer-led innovation or consumers as part of the innovation process, service operations management, and educational processes); Technology Innovation (the use of technology, including ICT-enabled innovation, ICTs that are themselves innovative and support the delivery of new services, new ICT services, new ways of delivering services associated with ICT products and technology other than ICT). The final part of the book is given to four extended cases allowing for a more in-depth treatment of innovation within a complex service system. The extended cases also illustrate two important and growing trends: firstly, the need for and benefits of a more customer-centric approach to service innovation, and secondly, the need for better understanding of public services and the role of public-private partnerships in identifying and achieving innovation.

**Indian Entrepreneurship** Jay Mitra, 2020-12-15. This book provides cutting-edge insights into factors, issues, and instruments that foster entrepreneurship and innovation in its various guises in India, the fastest growing economy in the

world today India's future is predicated upon the capabilities of its people and organisations to identify and develop new products services types of organization and new forms of economic and social engagement with producers consumers institutions and her citizens The book addresses four critical factors people technology organisations and society It evaluates how Indian entrepreneurs utilise their range of key skills and entrepreneurial competencies in local and transnational environments It explores how software and technological development and the reorganisation of the public research infrastructure are leading to a transformation of our organisations and our capacity to develop new ones Further it examines the role of socially unity driven entrepreneurship and community based innovation centred round the arts and culture in urban and rural settings in promoting socially oriented transformation The book aims to offer a small but rich portfolio of India's unique entrepreneurial capabilities
