Studio System:

Hollywood TV Christopher Anderson, 2013-10-11 The 1950s was one of the most turbulent periods in the history of motion pictures and television. During the decade, as Hollywood's most powerful studios and independent producers shifted into TV production, TV replaced film as America's principal postwar culture industry. This pioneering study offers the first thorough exploration of the movie industry's shaping role in the development of television and its narrative forms. Drawing on the archives of Warner Bros and David O Selznick Productions and on interviews with participants in both industries, Christopher Anderson demonstrates how the episodic telefilm series, a clear descendant of the feature film, became and has remained the dominant narrative form in prime time TV. This research suggests that the postwar motion picture industry was less an empire on the verge of ruin, as common wisdom has it, than one struggling under unsettling conditions to redefine its frontiers. Beyond the obvious contribution to film and television studies, these findings add an important chapter to the study of American popular culture of the postwar period.

The Hollywood Studio System Douglas Gomery, 2017-10-27 Despite being one of the biggest industries in the United States, indeed the World, the internal workings of the dream factory that is Hollywood is little understood outside the business. *The Hollywood Studio System: A History* is the first book to describe and analyse the complete development, classic operation and reinvention of the global corporate entities which produce and distribute most of the films we watch. Starting in 1920, Adolph Zukor, Head of Paramount Pictures, over the decade of the 1920s helped to fashion Hollywood into a vertically integrated system, a set of economic innovations which was firmly in place by 1930. For the next three decades, the movie industry in the United States and the rest of the world operated by according to these principles. Cultural, social and economic changes ensured the demise of this system after the Second World War. A new way to run Hollywood was required. Beginning in 1962, Lew Wasserman of Universal Studios emerged as the key innovator in creating a second studio system. He realized that creating a global media conglomerate was more important than simply being vertically integrated. Gomery's history tells the story of a tale of two systems, using primary materials from a score of archives across the United States, as well as a close reading of both the business and trade press of the time. Together with a range of photographs never before published, the book also features over 150 box features illuminating aspects of the business.

Studio Ghibli Rayna Denison, 2023-02-21 *Studio Ghibli: An Industrial History* takes us deep into the production world of the animation studio co-founded by Oscar-winning director Hayao Miyazaki. It investigates the production culture at Studio Ghibli and considers how the studio has become one of the world's most famous animation houses. The book breaks with the usual methods for studying Miyazaki and Ghibli's films, going beyond textual analysis to unpack the myths that have grown up around the studio during its long history. It looks back at over 35 years of filmmaking by Miyazaki and other Ghibli directors, reconsidering the studio's reputation for egalitarianism and feminism, re-examining its relationship to the art of cel and CG animation, investigating Studio Ghibli's work outside of feature filmmaking from

advertising to videogames and tackling the studio's difficulties in finding new generations of directors to follow in the footsteps of Miyazaki and Isao Takahata. By reconstructing the history of Studio Ghibli through its own records, promotional documents, and staff interviews, *Studio Ghibli: An Industrial History* offers a new perspective not just on Ghibli but on the industrial history of Japanese animation.

The Hollywood Trust Kia Afra, 2016-06-22. As the film industry was establishing itself at the start of the twentieth century, trade associations played a pivotal role in the emergence of the studio system. These producer-distributor trade associations were forums for internal and external conflicts, as well as the true sources of influence and power in early Hollywood. In *The Hollywood Trust: Trade Associations and the Rise of the Studio System*, Kia Afra provides a detailed account of three successive trade organizations from 1915 to 1928: the Motion Picture Board of Trade, the National Association of the Motion Picture Industry (NAMPI), and the Motion Picture Producers and Distributors of America (MPPDA). Afra outlines the relationships of power in Hollywood's early years, asking questions such as: How and why did the studio system come about, and what were the industrial and institutional forces that impacted Hollywood's development? In order to answer these crucial questions, *The Hollywood Trust* explores the role played by film industry trade associations in navigating important issues facing the burgeoning studio system, including censorship, public relations, trade practices, government regulation, film distribution, labor conflicts, taxes, and tariffs, and exhibitor opposition. A vital look at an under-reported aspect of the studio system, this volume fills a gap in the history of the American film industry. As such, *The Hollywood Trust* will be of particular interest to scholars of film history, as well as those concerned with cultural history and the political economics of entertainment.

Literature into Film Linda Costanzo Cahir,2014-12-24 For most people film adaptation of literature can be summed up in one sentence The movie wasn't as good as the book This volume undertakes to show the reader that not only is this evaluation not always true but sometimes it is intrinsically unfair Movies based on literary works while often billed as adaptations are more correctly termed translations A director and his actors translate the story from the written page into a visual presentation Depending on the form of the original text and the chosen method of translation certain inherent difficulties and pitfalls are associated with this change of medium So often our reception of a book based movie has more to do with our expectations and reading of the literature than with the job that the movie production did or did not do Avoiding these biases and fairly evaluating any particular literary based film takes an awareness of certain factors Written with a formalistic rather than historical approach this work presents a comprehensive guide to literature based films establishing a contextual and theoretical basis to help the reader understand

the relationships between such movies and the original texts as well as the reader's own individual responses to these productions. To this end it focuses on recognizing and appreciating the inherent difficulties encountered when basing a film on a literary work, be it a novel, novella, play, or short story. Individual chapters deal with the specific issues and difficulties raised by each of these genres, providing an overview backed up by case studies of specific film translations. Films and literary works receiving this treatment include *The Unbearable Lightness of Being*, *The Manchurian Candidate* (1962), *Lady Windemere's Fan* by Oscar Wilde, and Shakespeare's *Henry V*. Interspersed throughout the text are suggestions for activities the film student or buff can use to enhance his or her appreciation and understanding of the films.
