

SOCIAL PROBLEMS FINAL EXAM STUDY GUIDE

Each response should be a MINIMUM of 150 words. You will NOT be allowed to bring notes to the exam.

Define the term “social problems.” Explain the difference between personal problems and social problems.

I define the term “social problems” as issues that cause a negative impact on the majority of society, an obvious example of a social problem would be racism. The difference between personal problems and social problems is that a personal problem tends to only affect one specific person and possibly those around them, close friends or family, meanwhile a social problem affects an entire community/ society. For example, divorce is considered a personal problem. It affects the two people involved in the divorce and probably the friends and family of those two people. Divorce does not affect an entire society. An issue that affects an entire society would be poverty.

List the three topics you found most interesting this semester and explain why you found them interesting.

The three topics I found most interesting this semester were crime in the United States, education, and marijuana legalization. During the crime in the United States module, we talked about how criminals and their crimes tend to be glamorized. I agree with this statement and thought it was important to shed light onto this topic so people can learn to acknowledge the victims more than the criminal. In the education module, we talked about the difference between online and in person classes, something that is very relevant to us today. It was interesting to discuss in depth our school experiences. And finally, during the opioid crisis in America module, we talked about marijuana legalization. I thought it was very interesting reading all my classmates’ responses and how I was one of the very few who said recreational use should not be legalized.

What social problems do you believe is the biggest issue in the United States at this time? Explain.

I think racism and homophobia are one of the biggest issues in the United States at this time. Living in the south, I see a lot of it. And I don’t think that either will ever end because there’s always going to be people out there who can’t unlearn what they were taught or can’t grasp that being different isn’t a bad thing. The color of someone’s skin means absolutely nothing. Who someone is sexually attractive to means absolutely nothing. We are all human. But for some reason, people can’t seem to understand that. Instead, people will continue to be unkind to each other and hurt those who are different from them.

What social problem do you believe is the biggest issue in education at this time? Explain.

I believe that poverty and homelessness could possibly be one of the biggest issues in education at this time. Mainly in regards to college. Those who are in poverty can’t possibly afford to send their children to college. And in today’s age, a college degree is extremely important. Of course there are jobs that don’t require one, but a lot of those jobs require trade
