

The image features a vibrant, cartoonish title 'MEME MACHINE' centered in a desert landscape. The word 'MEME' is written in large, bubbly, multi-colored letters (green, yellow, red, purple, blue) with thick black outlines. Below it, the word 'MACHINE' is written in white block letters on a row of colorful, 3D rectangular blocks (pink, blue, purple, yellow, green, red, yellow). The background is a bright blue sky with two large, light purple gears in the upper right. The ground is a sandy desert with sparse brown bushes and distant brown mountains. At the bottom, there are more light purple gears. The entire scene is framed by a decorative border at the top and bottom consisting of a black and yellow hazard stripe pattern above and below a row of colorful, multi-colored rectangular blocks.

The Meme Machine Susan J. Blackmore,2000-03-16 Humans are extraordinary creatures with the unique ability among animals to imitate and so copy from one another ideas habits skills behaviours inventions songs and stories These are all memes a term first coined by Richard Dawkins in 1976 in his book *The Selfish Gene* Memes like genes are replicators and this enthralling book is an investigation of whether this link between genes and memes can lead to important discoveries about the nature of the inner self Confronting the deepest questions about our inner selves with all our emotions memories beliefs and decisions Susan Blackmore makes a compelling case for the theory that the inner self is merely an illusion created by the memes for the sake of replication

Reading Richard Dawkins Gary Keogh,2014 Theological reactions to the rise of the new atheist movement have largely been critically hostile or defensively deployed apologetics to shore up the faith against attack Gary Keogh contends that focusing on scholarly material that is inherently agreeable to theology will not suffice in the context of modern academia Theology needs to test its boundaries and venture into dialogue with those with antithetical positions Engaging Richard Dawkins as the embodiment of such a position illustrates how such dialogue may offer new perspectives on classical theological problems such as the relationship of science and religion the existence of God creation natural suffering and theodicy Keogh demonstrates how a dialogical paradigm may take shape rather than merely discussing it as a theoretical framework A dialogue between such opposing hermeneutics may provide a new paradigm of theological scholarship one which is up to the task of facing its critics in the public and pluralistic context of modern academia

A Shared Morality Craig A. Boyd,2007-11-01 Morality based on natural law has a long tradition and has proven to be quite resilient in the face of numerous attacks and challenges over the years Those challenges are no less serious today which leads one to ask if natural law is still a viable foundation for ethics Craig Boyd provides a contemporary defense of natural law theory against modern challenges from the arenas of science religion culture

and philosophy In his analysis he defends many of the classical elements of natural law but also takes into account the contributions of scientific discoveries about human nature He concludes that natural law is a necessary but not sufficient basis for ethics that must be accompanied by a theory of virtue

Stereotypes in Internet Memes. A Linguistic Analysis I. Magel, 2017-02-28 Examination Thesis from the year 2016 in the subject English Language and Literature Studies Linguistics grade 2.0 language English abstract At first glance internet memes seem to be the humorous part of our digital culture Indeed they are But they also reveal stereotypical thinking which I will focus on in my analysis This analysis will investigate thoroughly internet memes from a linguistic viewpoint Starting from Richard Dawkins' definition via Susan Blackmore's third replicator theory through to Limor Shifman's critical approach about the state of research concerning memes Internet memes are also examined from a communication oriented view Successful Black Man Successful White Man Ordinary Muslim Man and High Expectation Asian Father serve as a basis for my analysis A combination of Semiotic Analysis and Discourse Analysis is used in order to examine the selected examples Both methods were chosen because Internet memes involve written texts as well as signs or images which contain invisible meaning All results taken together this thesis will show that Internet memes are still interpreted stereotypically in our multicultural present day society

Red Genes, Blue Genes Guillermo Jiménez,2009 Modern science postulates that our political predispositions can be traced to our genes To some extent there is such a thing as red state or blue state DNA Our brains likewise bear the evolutionary imprint of hundreds of thousands of years of political wiring for biased partisanship The result is a political landscape characterized by irrationality and hostility Americans today like citizens of many other countries find themselves trapped in hostile red vs blue political warfare While liberals and conservatives fight each other for power and influence the world s problems go unsolved Using recent scientific evidence from neuroscience behavioral genetics and evolutionary and cognitive psychology *Red Genes Blue Genes* is the first book to take a comprehensive look at the phenomenon of political irrationality This book seeks to unravel a number of political mysteries Why does it seem that liberals and conservatives are different kinds of people Why are political arguments so hostile and impervious to reason Why are partisans and political figures so certain they are right all the time Why are citizens everywhere unsatisfied with democratic systems of government

Why are political campaigns so shallow vicious and manipulative This book provides answers to the above questions showing how understanding political irrationality may enable us to devise new systems of government that are truly democratic Book jacket
