Professor of History at the University of London      **The Catholic Reformation** John C. Olin, 2024-10-22 Available in a new digital edition with reflowable text suitable for e readers This work contains fifteen key documents illustrative of reform in the Church in the period from 1495 to 1540 an age of great religious ferment and upheaval which is marked historically by the crisis known as the Protestant Reformation The documents collected in this work focus on the simultaneous struggle for renewal and reform within the Catholic Church There was much amiss within the Church at the close of the Middle Ages The Protestant Reformation threw into high relief the urgent need for religious reform Involving basic questions of doctrine practice and authority this severe trial put in jeopardy the very life of the existing Catholic Church The balanced selection of notable and representative source materials tells their story in a lively and dramatic way This important work on a little known aspect of a turbulent era is a valuable contribution to Reformation studies      **The Renaissance, the Protestant Revolution and the Catholic Reformation in Continental Europe** Edward Maslin Hulme, 1914      **Trust in the Catholic Reformation** Thérèse Peeters, 2022-06-08 In *Trust in the Catholic Reformation* Thérèse Peeters shows how trust and distrust affected reform attempts in the post Tridentine Church while offering a multifaceted account of day to day religiosity in seventeenth century Genoa a city that has largely been overlooked in Anglophone scholarship The book addresses diverse aspects of early modern Catholicism among lay people and members of the clergy The author replaces the traditional view of the Catholic Reformation as a top down process with one that considers individual agency highlighting how strategies for gaining and maintaining trust as well as the processes by which trust could be lost or denied determined the success or failure of various efforts at reforming the Church      **Regulating the People: The Catholic Reformation in Seventeenth-Century Spain** Poska, 2023-07-03 This study of early modern Spain uses parish records to examine the content of religious practice and belief at the parish level and the success of the Catholic Church's attempt to alter those beliefs during the Catholic Reformation The first three chapters explore the problems encountered by episcopal Visitors to parishes in the diocese of Ourense in northwestern Spain as they attempted to enforce the ideals of the Catholic Reformation program The last three chapters use both quantitative and qualitative sources to contrast the expectations of the Catholic Church with parishioner participation in socio religious activities such as naming marriage choice and the composition of testaments This work is particularly important to scholars of colonial Latin America as it describes the local religion that Spanish colonists brought to the New World      **Protestant and Catholic Reform** Enzo Bellini, 1981 The Protestant Reformation and the Catholic or Counter Reformation form the main topic of this book the seventh in the series In the sixteenth century abuses in the Church demanded correction The religious revolution began in earnest in 1517 sparked by Martin Luther a German Augustinian monk Other great leaders especially John Calvin spread Protestant ideas religious differences spread throughout Europe leading to deep divisions The modern world began with these unhappy divisions but it began also with that serious seeking for God which is a noble inheritance left by Luther and his contemporaries      **The Renaissance the Protestant**

**The Counter-Reformation** Anthony D. Wright,2017-09-29 Modern scholarship has effectively demonstrated that far from being a knee jerk reaction to the challenges of Protestantism the Catholic Reformation of the sixteenth and seventeenth centuries was fuelled primarily by a desire within the Church to reform its medieval legacy and to re-enthuse its institutions with a sense of religious zeal In many ways both the Protestant and Catholic Reformations were inspired by the same humanist ideals and though ultimately expressed in different ways the origins of both movements can be traced back to the patristic revival of the fifteenth and sixteenth centuries Nevertheless it is undeniable that many contemporaries and subsequent historians came to view the Catholic Reformation as an attempt to challenge the Protestants and to cut the ground from beneath their feet In this new revised edition of Dr Wright's groundbreaking study of the Counter Reformation

the wide panoply of the Catholic Reformation is spread out and analysed within the political religious philosophical scientific and cultural context of late medieval and early modern Europe In so doing this book provides a fascinating guide to the many doctrinal and interrelated social issues involved in the wholesale restructuring of religion that took place both within Western Europe and overseas
