*The Times Medieval World* Rosamond McKitterick, 2003 From the Islamic expansion into the Middle East North Africa and Europe to the European discovery of the Americas The Times Medieval World covers a period of cultural vibrancy and political diversity Far from being a homogeneous world of knights and castles the medieval world saw a multitude of contrasting and often competing cultures many of which laid crucial foundation stones for the building of modern societies

**Time in the Medieval World** Chris Humphrey, W. M. Ormrod, 2001 A look at the competing notions of time in the middle ages from the spiritual death the Last Judgement to the practical lawyers calculations clocks and calendars By exploring some of the more important senses of time which were in circulation in the medieval world scholars from a wide range of disciplines trace competing definitions and modes of temporality in the middle ages explaining their influence upon life and culture The issues explored include anachronism as a feature in earlier senses of time perceptions of death and of the Last Judgement time in literary narratives and in music constructions of time as used in the professions and original work on the particular systems and technologies which were used for the keeping of time such as clocks and calendars Contributors PAUL BRAND PETER BURKE MARY J CARRUTHERS DEBORAH DELIYANNIS CHRISTOPHER HUMPHREY ROBERT

Classen, 2020-08-24 The notions of other peoples cultures and natural conditions have always been determined by the epistemology of imagination and fantasy providing much freedom and creativity and yet have also created much fear anxiety and horror In this regard the pre modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees but they are fundamentally the same by content Dreams illusions projections concepts hopes utopias dystopias desires and emotional attachments are as specific and impactful as the physical environment This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions images and notions Previous scholarship focused heavily on the history of mentality and history of emotions whereas here the history of pre modern imagination and fantasy assumes center position Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives This approach facilitates a new deep structure analysis of pre modern culture
