Timing Successful Policy Change Lessons From The Civil Service:

Timing Successful Policy Change Anna Marie Schuh,2000-06-14 In *Timing Successful Policy Change* Anna Marie Schuh examines four periods of civil service reform especially their relation to legislative and administrative responses An elucidation of the key role of the bureaucracy the book focuses on the tensions between branches of government that drive policy making Schuh chooses to appropriate and expand upon John Kingdon s highly regarded political analysis providing readers with a model that promises to guide public policy analysis far into the future [Civil Service Reform in the States](#) J. Edward Kellough,Lloyd G. Nigro,2012-02-01 *Civil Service Reform in the States* examines the critical importance of civil service systems in modern government and popular efforts to reform those systems The book provides an up to date analysis and assessment of public personnel reforms undertaken by various state governments since 1990 and the extent to which these reforms have been implemented or resisted With chapters written by nationally recognized experts on civil service and civil service reform this book will appeal to public policy makers practitioners and students alike **Robert Michels, Political Sociology and the Future of Democracy** Juan Linz,2017-07-05 These essays by the brilliant historian of political science Juan Linz comprise a remarkable intellectual review of the life and work of Robert Michels his major book *Political Parties and the dimensions of democracy* as a functioning system Linz elucidates the importance of Michels in a way that offers more than a mechanical view of political parties as some sort of precisely ordered system of authority and influence Instead Michels offers a view of politics that is bottom up and untidy what he calls a reciprocal deference structure Michels is not simply the father of the iron law of oligarchy but the idea of politics as a less than orderly network of responsiveness responsibility and accountability Linz demonstrates with magisterial power why Michels must be ranked as a foremost thinker in classical political sociology The remaining three segments of the volume cover areas with which Linz has also long been identified Each in its own way illumines aspects of Michels as well *Time and Regime Change* articulates differences between change within a regime and change of a regime sometimes hard to identify because of the elongated time frames involved The next essay explains why Spain is neither a traditional society nor a successful modern nation The reliance upon central authority displaced the hoped for evolution of a society based on representative democratic institutions The final section *Freedom and Autonomy of Intellectuals and Artists* is a topic that gripped Michels and Linz alike Freedom as a goal of the intelligentsia has been frustrated by those who provide ideological justification for repression of ideas and actions in the name of higher values This segment provides a bridge between Michels and Weber not to mention both of these major figures with Linz himself The role of state power in mediating intellectual freedom is the leitmotif that blankets the twentieth century The work is graced by a full length bibliography o **Review of Public Personnel Administration** ,2003 Include abstracts *Policy Transfer Under Authoritarianism* Hang Duong,2023-09-01 This book provides a comprehensive analysis of policy transfer in authoritarian regimes Focusing on Vietnam it explores how and why authoritarian governments learn

from other countries and the significance of policy transfer outcomes By examining merit based policy transfer in Vietnam s civil service and comparing it with policy transfer in China the book uncovers key aspects of policy transfer in one party authoritarian systems In doing so it addresses an important gap in the literature on policy transfer that has predominantly focused on Western democracies The book highlights the role of the ruling party in overseeing policy transfer and the resulting consolidation of authoritarian power structures It also provides theoretical recommendations for future research and addresses the practical implications of policy transfer and meritocratic reform in authoritarian contexts It will appeal to all those interested in public policy authoritarianism and Asia Pacific studies

Change in Government Great Britain: Parliament: House of Commons: Public Administration Select Committee,2011-09-22 The Coalition Government has set a sizeable challenge for the Civil Service to transfer power out of Whitehall and into communities and as a result fundamentally change the way it works The Committee found that while the Government seeks to embrace change they have failed to recognise the scale of reform required or to set out the change programme required to achieve this reform The lack of coordination from the centre and strong political leadership will result in the failure of key policies like the Big Society agenda The Committee recommended a comprehensive change programme articulating clearly what the Government believes the Civil Services is for how it must change and with a timetable of clear milestones This change programme must also include proposals for the Civil Service to retain and develop the new skill sets required to meet the demands of the Big Society policy agenda and address long running concerns about the decline in specialist expertise in Whitehall the failure to innovate and take risks and the failure to work across departmental silos The reflect the changing role of the Civil Service the Committee has also recommended that the Government should consider the development of a new Haldane model of accountability or they must explain how the model remains relevant The new realities of devolving power out of Whitehall to local government and elsewhere should be codified in the Civil Service governance structure
