*The Struggle for Student Rights* John W. Johnson,1997 Benjamin F Shambaugh Award Honorable Mention The tension between free speech and social stability has been a central concern throughout American history In the 1960s that concern reached a fever pitch with the anti Vietnam War movement When anti war sentiment invaded American schools official resolve to retain order in the classroom vied with the rights of students to speak freely A key event in that face off was the Supreme Court decision in Tinker v Des Moines In 1965 five public school students in Des Moines including John Tinker a Methodist minister s son protested the Vietnam War by wearing black armbands in defiance of school policy Suspended on disciplinary grounds that were upheld in federal court the students took their case to the Supreme Court arguing that they had been denied their right of freedom of expression under the First Amendment Ruling in their favor the Court determined that armbands did not constitute a sufficient reason to abridge free speech a decision which helped provide a legal foundation for subsequent anti war protests John Johnson now offers a detailed account of Tinker that captures the personal struggle of the litigants and places this seminal constitutional controversy in the legal and historical context of the 1960s In this highly readable book he shows that the case is important for its divergent perspectives on the limits of free speech and explains how the majority and dissenting Court opinions mirrored contemporary attitudes toward the permissible limits of public protest As the most important student rights case ever to reach the Supreme Court Tinker raises important issues regarding First Amendment freedoms and is a strong precedent for both the rights of public school

students and legitimate civil disobedience The Struggle for Student Rights contains previously unpublished information and insights on this well known case and provides a fascinating legal window on a turbulent era With federal and state courts now considering the limits of speech and symbolic expressions in our schools it makes a significant contribution to understanding the principles that are at stake

**Tinker Vs. Des Moines** Doreen Rappaport,2012-10-01 In 1965 school officials in Des Moines Iowa banned the wearing of black arm bands by students mourning the dead in the Vietnam War When the students wore the arm bands anyway they were suspended Were the students constitutional rights violated Readers will sit in the judge s chair and decide who is right

**Beyond the Schoolhouse Gate** Robert Wheeler Lane,Robert Lane,2010-04-20 Outstanding Academic Title Choice 1995 What makes Lane s approach unique is that he weaves together different perspectives on the nature of school into a very colorful but informative and lucid tapestry that seeks the outer limits of free expression within the boundaries of the school context always with an eye toward promoting the goal of inculcation of values a worthy end for students and school officials alike Samuel M Davis Allen Post Professor of Law University of Georgia In a 1969 landmark case the U S Supreme Court ruled that the suspension of student for protesting the Vietnam War violated the First Amendment In 1972 the U S court of appeals upheld the suspension of black high school students for protesting the playing of Dixie at a pep rally In 1986 a U S district court ruled that the suspension of a student for directing a vulgar gesture at one of his school teachers in a fast food restaurant was unconstitutional On what grounds do public school students merit First Amendment protection These three examples illustrate the broad range of litigation that has attempted to answer this question Robert Wheeler Lane reviews the obstacles of this important issue and suggests a mix of protection and autonomy for students Pulling together evidence about the aims of public education the changing legal status of children and the values underlying freedom of expression Lane debates the relationship between constitutional litigation and the dual pursuits of academic excellence and classroom order Ultimately utilizing both lower court and Supreme Court decisions he finds that independent student expression deserves considerable constitutional protection student expression assisted by school officials such as school funded student newspapers should be subject to some control and nonstudent expression such as a school s selection of library books should be left largely to the school s discretion His conclusions suggest that in forging First Amendment protection for public school students strongly held positions need not be extreme

**Lessons in Censorship** Catherine J. Ross,2015-10-19 American public schools censor controversial student speech that the Constitution protects Catherine Ross brings clarity to court rulings that define speech rights of young citizens and proposes ways to protect free expression arguing that the failure of schools to respect civil liberties betrays their educational mission and threatens democracy
