Formal Investigation Into the Loss of the S.S. "Titanic" Great Britain. Commissioner of Wrecks, Great Britain. Wreck Commissioner, 1912 [The Titanic - "Everything Was Against Us"](#) Simon Angel, 2012 Plagued by disinformation personal politics and poor research the Titanic story has existed in a miasma of romance and chivalry for a century now Going back to the official enquiry transcripts and letters and interviews from survivors a different picture emerges and controversies about the sinking can be addressed Were the 3rd class held below decks while the nobility escaped Did the captain or 1st officer shoot themselves Why did the ship leave port with room in the boats for only half of those on board and why were 400 seats in the boats wasted Was the Titanic trying for a speed record With the aid of a hundred years of research an enlightening new account of the liner's final hours emerges **The Marconigraph**, 1911 **Titanic Calling** D. systems and standards of national media infrastructure control The book further examines the political negotiations around the International Telecommunication Union the growth of international communication networks and the expansion of global media companies on the eve of World War I The Global Wireless demonstrates that long before Wi Fi and 5G another wireless technology had already spread around the globe and prompted in its wake a radical reconsideration of networked communication and community The Global Wireless should appeal to a broad range of readers from specialists in the history of radio technology and global politics to professionals and hobbyists in today s wireless and radio industries Titanic Filson Young,1912 *On a Sea of Glass* Tad Fitch,J.
