## Talking In Animal:

The Speaking Animal Alison Suen, 2015-10-02 Animals regularly populate philosophical texts as a foil to illustrate what it means to be human How should we understand this human animal divide Not only does it inform us of who we are it also tells us how we should relate to the larger non human world The Speaking Animal interrogates the human animal divide by looking at our linguistic differences how the speaking human subject is constructed through its opposition to the dumb animal Alison Suen begins with an analysis of the role of language in animal ethics with an eye toward the voice voiceless opposition that is at work in animal advocacy After offering a critical analysis of the ethical and political significance of speaking for animals the book takes on a more constructive turn going against the usual interpretation of language as a capacity that allows us to reason Instead it argues that our language capacity is also a relational capacity Language is that which enables us to develop kinship with others including animal others

*The Mythology of the Animal Farm in Children's Literature* Stacy E. Hault-Saros, 2016-07-21 The Mythology of the Animal Farm in Children s Literature Over the Fence analyzes the ways in which myths about farmed animals lives are perpetuated in children s materials Specifically this book investigates the use of five recurring thematic devices in about eighty books for young children published during the past five decades The close readings of texts and images draw on a wide range of fields including animal theory psychoanalytic and Marxian literary criticism child development theory histories of farming and domestication and postcolonial theory In spite of the underlying seriousness of the project the material lends itself to humorous and not overly heavy handed explications that provide insight into the complex workings of a literary genre based on the covering up of real animal lives
