German Army was no longer capable of fighting an offensive war The army was short of men guns and tanks and the Luftwaffe could not afford to lose more aircraft Consequently when Hitler flew to his forward headquarters in Ukraine in February 1943 he brought with him a clear message the German Army would no longer go on the offensive For the next year it would instead defend its positions and let the Red Army exhaust itself in futile attacks As we know that is not how history turned out At the meeting in Ukraine Hitler's generals identified a vulnerable spot on the front line where hundreds of thousands of enemies could be captured and the Soviets weakened before they launched their summer offensive After weeks of deliberation the Führer was persuaded to make a fateful decision All forces were to be deployed to the front line salient where they would trap the Red Army near the city of Kursk 500 kilometres southwest of Moscow For the next few months both the German Army and the Red Army staked everything on winning the coming Battle of Kursk Soviets in their thousands built impenetrable defensive lines while German units transported newly developed Tiger tanks and Wespe Wasp guns by the hundreds to the front line Finally on 5th July 1943 Soviet artillery shattered the silence of the balmy Russian summer night The Battle of Kursk was underway and the winner of World War II would be decided during the following week's engagements World History invites you on a fascinating journey to bygone eras allowing you to explore the greatest events in history Take a trip back in time to the frontlines of World War 2 to the Viking raids and to the religious rituals of ancient Egypt World History is for everyone who would like to know more about the exciting and dramatic events of the past

Fuller DSO, 2014-08-15 Includes more than 30 maps plans and diagrams The world renowned military expert Major General J F C Fuller DSO noted for his many works on military strategy tactics and history turns his attention to the famed

Royal Tank Corps of World War I He was in a particularly good position to write such a work as he served from 1916 as part of the Tanks Corps and planned the famous tank attack at Cambrai in 1917 he also took a leading role in the planning of the 1918 autumn offensives that broke the back of German resistance and ended the War He covers in comprehensively the development of the tank mechanical characteristics of early British tanks particularly the Mark I as well as the early battles at the Somme and Ancre He also describes the growth of the Tank Corps itself tank tactics tank engineering plus the tank battles in 1917 1918 There are also appreciations of German French and American tank activities Tanks Marsh Gelbart,1996 The role of the armoured fighting vehicle AVF on the battlefield is probably the subject of more discussion now than at any time in recent history From the formidable main battle tank to the light armoured personnel carrier the variety and role of these versatile vehicles is extensive This work details the equipment to be found in current use throughout the world

The Tank in Action Douglas Gordon Browne,1920

Dubno 1941 Alexey Isaev,2017 In June 1941 during the first week of the Nazi invasion in the Soviet Union the quiet cornfields and towns of Western Ukraine were awakened by the clanking of steel and thunder of explosions this was the greatest tank battle of the Second World War About 3 000 tanks from the Red Army Kiev Special Military District clashed with about 800 German tanks of Heeresgruppe South Why did the numerically superior Soviets fail Hundreds of heavy KV 1 and KV 2 tanks the five turret giant T 35 and famous T 34 failed to stop the Germans Based on recently available archival sources A Isaev describes the battle from a new point of view that in fact it s not the tanks but armored units which win or lose battles The Germans during the Blitzkrieg era had superior tactics and organizations for their tank forces The German Panzer Division could defeat their opponents not by using tanks but by using artillery which included heavy artillery and motorized infantry and engineers The Red Army s armored units the Mechanized Corps had a lot of teething troubles as all of them lacked accompanying infantry and artillery In 1941 the Soviet Armoured Forces had to learn the difficult science and mostly art of combined warfare Isaev traces the role of these factors in a huge battle around the small Ukrainian town of Dubno Popular myths about impregnable KV and T 34 tanks are laid to rest In reality the Germans in 1941 had the necessary tools to combat them The author also defines the real achievements on the Soviet side

the blitzkrieg in the Ukraine had been slowed down For the Soviet Union the military situation in June 1941 was much worse than it was for France and Britain during the Western Campaign in 1940 The Red Army wasn't ready to fight as a whole and the border district's armies lacked infantry units as they were just arriving from the internal regions of the USSR In this case the Red Army tanks became the Iron Shield of the Soviet Union they even operated as fire brigades In many cases the German infantry not tanks became the main enemy of Soviet armored units in the Dubno battle Poorly organized but fierce tank based counterattacks slowed down the German infantry and while the Soviet tanks lost the battle they won the war

The European War, 1918 **Notes on Post-war Ordnance Development** LeRoy Hodges, 1923 **Armor**, 1974

The Battle of Prokhorovka Christopher A. Lawrence, 2019-06-01 The Battle of Kursk was one of the defining moments of World War II In July 1943 German forces under Erich von Manstein one of Germany's best generals launched a massive attack in an offensive code named Citadel A week later the Soviets counterattacked sparking a huge clash of tanks at Prokhorovka the largest armor battle in history pitting more than 600 Soviet tanks against some 300 German panzers Though the Germans gained a tactical victory destroying huge numbers of Soviet tanks they failed to achieve their objectives and in the end the battle marked a turning point on the Eastern Front The Red Army gained the strategic initiative and would not lose it
