Ray Bradbury: The Last Interview Ray Bradbury, Sam Weller, 2014-12-02 Ray Bradbury was long the most influential sci fi writer in the world the poetic and visionary author of such classics as *Fahrenheit 451* *The Martian Chronicles* and *The Illustrated Man* But he also lived a fascinating life outside the parameters of sci fi and was a masterful raconteur of his own story as he reveals in his wide ranging and in depth final interview with his acclaimed biographer Sam Weller After moving to Los Angeles he became an inveterate fanboy of movie stars spending hours waiting at studio gates to get autographs He would later get to know many of Hollywood's most powerful figures when he became a major screenwriter and he details here what it was like to work for legendary directors such as John Huston and Alfred Hitchcock And then there are all the celebrities from heads of state like Mikhail Gorbachev to rock stars like David Bowie and the members of Kiss who went out of their way to arrange encounters with Bradbury But throughout that last talk as well as the interviews collected here from earlier in his career Bradbury constantly twists the elements of his life into a discussion of the influences and creative processes behind his remarkable developments and inventions for the literary form he mastered Mixed with cheerful gossiping about his travels and the characters of his life it makes for a rich reading experience and a revealing collection of interviews

Ray Bradbury David Seed, 2015-02-28 As much as any individual Ray Bradbury brought science fiction's ideas into the mainstream Yet he transcended the genre in both form and popularity using its trappings to explore timely social concerns and the kaleidoscope of human experience while in the process becoming one of America's most beloved authors David Seed follows Bradbury's long career from the early short story masterpieces through his work in a wide variety of broadcast and film genres to the influential cultural commentary he spread via essays speeches and interviews Mining Bradbury's classics and hard to find archival literary and cultural materials Seed analyzes how the author's views on technology authoritarianism and censorship affected his art how

his Midwest of dream and dread brought his work to life and the ways film and television influenced his creative process and visually oriented prose style The result is a passionate statement on Bradbury's status as an essential literary writer deserving of a place in the cultural history of his time
