The Hamlet Warning:

The Hamlet Warning Leonard Sanders, 1977 **The Hamlet Problem and Its Solution** Emerson Venable, 1912 The Riddles of Hamlet and the Newest Answers Simon Augustine Blackmore, 1917 Reprint of the 1917 ed published by Stratford Co Boston **The Hamlet Syndrome** Adrienne Miller, Andrew Goldblatt, 1989 Provides insight into those individuals caught in a self-defeating pattern of behavior characterized by excessive thinking and low performance **Prepossessing Henry James** Julián Jiménez Heffernan, 2023-05-31 The novels of Henry James are filled with ghosts but most of them escape dramatic treatment. These elusive specters are the voices of precursors that haunt his narratives, compromising their constitutive freedom. *The Strange Freedom* is an examination of the ways James's fiction is prepossessed by some major voices of the English literary tradition: those of Shakespeare, Richardson, Fielding, Gibbon, Thackeray, and Dickens. This subtexual arrogation sets constraints to the unfolding in James's narratives of liberal and romantic freedom; it places limits both to the absolute exemptions of aesthetic interest and to radical Bohemian abandon. But these constraints and limits can be regarded dialectically as the enabling conditions of the very liberty they imperil. Drawing on recent research on the spectral dynamics and indirections of literary influence by scholars like Adrian Poole, Philip Horne, Nicola Bradbury, Tamara Follini, and Peter Rawlings, but also on earlier deconstructive work by John Carlos Rowe, *Prepossessing Henry James* offers a speculative account of the way James is simultaneously resourced and restrained by his sources. Along the way, we discover how Hamlet's ghost instills in James a fantasy of mental autonomy or how he adapts Gibbon's Enlightened narrative to inhibit civic liberty with images of female sacrifice. We see the governess in *The Turn of the Screw* possessed by the specter of Richardson's Pamela, exposing social freedoms with liberal brutality. We encounter Gray in *The Ivory Tower* striving to obtain personal freedom by repressing Dickensian figures monstrous and fantastic. And finally, we recognize how much *The Ambassadors* owes to the ambiguous manner of Thackeray. It traces the beginnings of this anxiety from the 1970s, which increased during the 1990s after the collapse of the Soviet Union. The traumatic events of 9/11 became a major reference point for this fiction which expressed the fear that of a second and worse 9/11. The study examines narratives of conspiracies which are detected and forestalled and of others which lead to the

worst of all outcomes nuclear detonations sometimes delivered by suitcase nukes In some of these narratives the very fate of the nation hangs in the balance in the face of nuclear apocalypse The discussion considers cases of attacks by electromagnetic pulse EMP cyberterrorism and even bioterrorism Some of the authors examined are present or former politicians members of the CIA and former president Bill Clinton

The Additional Protocols to the Geneva Conventions in Context Annyssa Bellal,Stuart Casey-Maslen,2022-10-20 The Additional Protocols to the 1949 Geneva Conventions remain a landmark in the development of international humanitarian law The first two Additional Protocols were adopted by states in 1977 These protocols encompass the rules governing the treatment and protection of those in the power of an enemy as well as the conduct of hostilities Crucially they address non international armed conflicts and wars of national liberation In 2005 a third additional protocol designating an additional distinctive humanitarian emblem was adopted in controversial circumstances The Additional Protocols to the Geneva Conventions in Context interprets the key rules and issues of the Additional Protocols and considers their application and

implementation over the past forty years Taking a thematic approach the book examines subjects including the protection of women armed non state actors relief operations and prohibited weapons Each chapter discusses the pertinence of existing laws the challenges raised by the rules in the Additional Protocols and what more could be done to better protect civilians This book also considers whether new technologies such as offensive cyber operations and autonomous weapons need new treaty rules to regulate their application in armed conflict **“The” New Shakspere Society** New Shakspere Society,1880
