## **The Law In Political Integration:**

The Law in Political Integration Stuart A. Scheingold, 2014-04-20 The classic political and legal study of how the early years of formation of the European Union relied on consensus and legal processes but not an analogy to federalization as in U S Constitutional law to evolve integration and respect for higher authority than national law Rather he found the truer path to political integration through regional decision making and in a concept of law that is more flexible and openly political than constitutional scholars would concede The study remains an important glimpse of the processes and institutions of law and politics that lead to greater political unity Law and lawyers were involved in these early steps in European integration as shown by political activity and research more than by the customary analysis of doctrine Part of the Classics of Law Society Series of Quid Pro Books this book is recognized as a fundamental contribution to the developing conceptualization of the E U through law and politics It was originally published in the Occasional Papers Series of the Harvard University Center for International Affairs It is introduced and explained in its 2011 edition by E U expert J rg Fedtke a senior law professor at Tulane University More recent studies confirm this line of inquiry writes Fedtke and show just how topical the core ideas of THE LAW IN POLITICAL INTEGRATION remain today Quality digital edition includes linked notes and active Contents legible tables from the print edition and proper ebook formatting The Law in Political Integration Eric A. **The Rule of Law in European Integration** Stuart A. Scheingold, 2013-07-17 Classic book about the origins of the EU and its most significant early economic disputes and judicial resolutions Adds a new Foreword 2013 by Malcolm Feeley UC Berkeley This pathbreaking book remains the definitive analysis of the first crucial decade of the formulation of the Constitution of Europe by at the time a little known court It must be read by all serious scholars of European integration Malcolm M Feeley University of California at Berkeley from the new Foreword In the early days of what would become the European Union the new entity had a weak and ill defined legislature and executive And the European Court of Justice whose decisions actions and even inactions subtly paved the way to a continent s integration Scheingold showed that its efforts deftly melding law and politics were a success beyond mere dispute resolution and development of legal doctrine writes Feeley He was well aware that he was present at the creation of a powerful new institution Yet he stood virtually alone in seeing what such an institution using its power this way could realize in terms of political integration The resulting book was a masterpiece The formative years of the EU relied on consensus and legal processes and an emerging agile Court but not on the predictable analogy to federalization as in U S Constitutional law to evolve integration and respect for a higher authority than national law Scheingold reveals these insights by examining political activity with his in the trenches research more than by the customary analysis of doctrine Presented in a modern digital presentation and a new affordable paperback with updated formatting adding the new Foreword this book is part of the Classics of Law Society Series from Quid Pro Books It embeds the original pagination to enhance referencing and citations from previous printings and to allow continuity with the new print edition Other quality Quid Pro digital features include linked endnotes active Table

**The Global Community Yearbook of International Law and Jurisprudence 2018** Giuliana Ziccardi Capaldo, 2019-08-16

The Global Community Yearbook is a one stop resource for all researchers studying international law generally or international tribunals specifically. The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence. It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal order from several perspectives. The Global Community Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary. The general editor Professor Giuliana Ziccardi Capaldo employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay guides which illuminate those cases. Although the main focus is recent case law from the major international tribunals and regional courts, the first four parts of each year's edition features expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy themes that appear throughout the case law of the many courts covered by the series as a whole. The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence, the series now also serves to prepare researchers for the issues facing emerging global law. The 2018 edition both updates readers on the important work of long standing international tribunals and introduces readers to more novel topics in international law. The Yearbook continues to provide expert coverage of the Court of Justice of the European Union and diverse tribunals from the International Court of Justice (ICJ) to criminal tribunals such as the International Criminal Court (ICC) and the Tribunals for the Former Yugoslavia and Rwanda, to economically based tribunals such as ICSID and the WTO Dispute Resolution panel. This edition contains original research articles on the development and analysis of the concept of global law and the views of the global law theorists such as whether the Paris Declaration of 2017 and the Oslo Recommendation of 2018 deals with enhancing their institutions' legitimacy, how to reconcile human rights, trade law, intellectual property, investment and health law with the WTO dispute settlement panel upholding Australia's tobacco plain packaging measure, Israel's acceptance of Palestinian statehood contingent upon prior Palestinian demilitarization, is potentially contrary to pertinent international law, and a proposal to strengthen cooperation between the ECJ and National Courts in light of the failure of the dialogue between the ECJ and the Italian Constitutional Court on the interpretation of Article 325 of the Treaty on the Functioning of the European Union. The Yearbook provides students, scholars and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates, as well as an annual overview of the process of cross fertilization between international courts and tribunals.
