## **Tort Liability Under Uncertainty:**

**Tort Liability Under Uncertainty** Ariel Porat, Alex Stein, 2001 Providing a comprehensive and principled account of the uncertainty problem that arises in tort litigation this text critically examines the existing doctrinal solutions of the problem as evolved in England United States Canada Israel *Street on Torts* John Murphy, 2007 Street on Tort has long been renowned for its clear and wide ranging coverage of the law of torts explaining how torts actually work and the social purposes behind them This edition continues to cover the range of torts and takes account of the growing importance of the Human Rights Act in tort issues *Transportation of Hazardous Materials* Leon N. Moses, Dan Lindstrom, 2012-12-06 Leon N Moses In June 1991 the Transportation Center at Northwestern University sponsored Hazmat Transport 91 A National Conference on the Transportation of Hazardous Materials and Wastes The faculty associated with the center were aware that there had been many professional industrial and government conferences and meetings on the subject However they believed that the unique capacity of the Transportation Center to bring together leaders from industry and government as well as leading scholars from economics law engineering psychology and sociology who have done research on the problems associated with the transportation of hazardous materials and wastes hazmats could produce a set of integrated insights and understandings that would go well beyond those of previous conferences The papers that make up this volume were all delivered at Hazmat Transport 91 From a legislative point of view they tend to deal with issues associated with the Hazardous Materials Transportation Act of 1975 HMTA the original act passed to regulate the transportation of hazardous materials and the Hazardous Materials Transportation Uniform Safety Act of 1990 HMTVSA There were talks and papers presented at the conference that focused on other recent legislation and transportation issues with which HMTUSA does not deal The conference proceedings volume also had discussions and papers on significant managerial and regulatory issues that could not be included in this volume because of constraints on its size Therefore this essay is made up of three parts

**A Toolbox for the Application of the Rules of Targeting** Tetyana (Tanya) Krupiy, 2016-02-29 How military commanders interpret the rules of targeting impacts not only on whether civilians and civilian objects are harmed in the course of a military operation but also on the scale of harm that ensues Commentators have queried whether military commanders observed the law even when parties to a conflict acted in accordance with mandates to protect civilians as was the case when a coalition of states bombed targets in Libya in 2011 However limited guidance is publicly available on how military commanders apply these rules on the battlefield In order to allow military commanders to exercise judgment in determining what steps they are required to take to spare civilians in a specific set of circumstances the rules of targeting are formulated in an open ended fashion which complicates one's ability to evaluate whether a particular military operation

complies with the law By examining case studies ranging from Operation Desert Storm in 1991 to Operation Protective Edge in 2014 this book addresses lacunae in current scholarship It puts forward principles which capture how military commanders deliberate while interpreting what the rules of targeting require in particular scenarios International humanitarian law this book contends places a duty on attackers to assume risk in order to mitigate danger to civilians Drawing on the field of psychology this study provides an explanation of how military commanders assess when circumstances do not permit them to inform civilians about a forthcoming attack

**Causation in European Tort Law** Marta Infantino,Eleni Zervogianni,2017-12-28 Through a comprehensive analysis of sixteen European legal systems based on an assessment of national answers to a factual questionnaire Causation in European Tort Law sheds light on the operative rules applied in each jurisdiction to factual and legal causation problems It highlights how legal systems features impact on the practical role that causation is called upon to play as well as the arguments of professional lawyers Issues covered include the conditions under which a causal link can be established rules on contribution and apportionment the treatment of supervening alternative and uncertain causes the understanding of loss of a chance cases and the standard and the burden of proving causation This is a book for scholars students and legal professionals alike
