

The Learning School

Derek Wise, Mark Lovatt

The Learning School:

Creating An Accelerated Learning School Derek Wise, Mark Lovatt, 2001-08-01 This book describes how an ordinary high school set about incorporating accelerated learning into its teaching practices and policies Headteacher Derek Wise provides a macro view of the process discussing the changes made across the whole school Head of Science Mark Lovatt provides a micro view looking at ways to use accelerated learning in the classroom Their experiences provide useful reading for any school wishing to improve the learning quality of its students Several case studies are included to show how accelerated learning techniques can be applied to different subjects

Creating a Learning to Learn School Toby Greany, Jillian Rodd, 2003-01-01 Creating a learning to learn school is a book for heads senior managers and teachers interested in developing better schools classrooms and learners It is based on two years of ground breaking research in 25 schools by over 100 teachers and many thousands of pupils The research explored a variety of approaches to teaching pupils how they learn and evaluated the impact on standards pupil motivation and teacher morale Creating a learning to learn school sets out what we mean by learning to learn why learning to learn is important today the implications of learning to learn for the government's educational reforms the [The Learning Indices and Study Methods of School Children in Spelling](#) Samuel Atkin, 1930

Teaching and Learning Using ICT in the Primary School John Meadows, Marilyn Leask, 2012-10-12 Teaching and Learning with ICT in the Primary School introduces teachers to the range of ways in which ICT can be used to support and extend the teaching and learning opportunities in their classrooms Chapters cover areas such as literacy numeracy science and their relationship with ICT managing curriculum projects using ICT creating and using multimedia applications Ideas and activities for teachers to try are based on tried and tested methods from innovative schools around the UK and abroad Practising teachers and students will find this an invaluable guide on how to work together to extend their skills and knowledge in the area of ICT

The Learning School Sue Davidoff, Sandy Lazarus, Nadeen Moolla, 2014 [Overcoming Inequalities in Schools and Learning Communities: Innovative Education for a New Century](#) Rocio Garcia-Carrion, Roseli Rodrigues De Mello, Arnetha F. Ball, 2020-03-24 Educational inequalities have strongly impacted disadvantaged and underserved populations such as indigenous Roma migrant children students with disabilities and those affected by poverty A wide array of research has contributed to explaining the mechanisms and effects of inequalities in the achievement patterns dropout rates disengagement in the school experiences of children and youth traditionally excluded Research also suggests the negative consequences for child development including cognitive language and social emotional functioning of poverty and lack of quality education in the early years Consequently the current unequal access to optimal learning environments for every single child to succeed in education and to have a better life perpetuates the exclusion and neglects their right to education for those minorities This Research Topic aims at moving beyond causes and shed light upon effective solutions by providing successful pathways for integration and inclusion of the learners most heavily affected

Scholars worldwide are looking for successful actions with children youth and communities of learners historically underserved to overcome educational and social exclusion. These transformative approaches go beyond the deficit thinking and are grounded in theories, empirical evidence, and multidisciplinary interventions oriented towards achieving social impact, which refers to the extent to which those actions have contributed to improve a societal challenge. The international network of Schools as Learning Communities is advancing knowledge on deepening and expanding the impact of what has been defined as Successful Educational Actions (SEAs), that is, those interventions that improve students' achievement and social cohesion and inclusion in many diverse contexts, regardless of the socioeconomic, national, and cultural environment of schools. Drawing on the evidence generated by this network of researchers to address the global challenge of inequality by studying educational actions oriented towards achieving social impact and potentially transferrable to other contexts, this Research Topic aims at deepening on this approach. In short, our purpose is that the contributions included in this Research Topic contribute to reduce educational and social inequalities and especially benefit those populations most in need.
