The Thing From Another World:

The Thing From Another World Andrew Patton, 2013-10-11 The I S I international science institute stationed in Antarctica where scientists from all over the world work The military division is in charge of the oiling project but they hit a snag a bluish contaminate in the oil is triggered by a halogen light blowing up a section of the I S I killing a few people During all this Childs MacReady had been rescued from another nearby camp They both wake from their comas Dr Jens Carrington is suspicious of Childs the entire time People are imitated by creatures and politics run amok A team is sent to the location of the remains of a spaceship buried under the ice The blue contaminate is fuel leaking from the ship hundreds of miles away A team explores the interior of the spaceship where everything goes wrong With no radio contact from storms there is now a sabotaged power outage Aliens are revealed and there is mass panic The team from the spaceship fly back by copter escaping what happened on the ship but with a new glowing horror trailing behind them *The Thing* Anne

Billson, 2019-07-25 An alien entity that can take any living form invades an isolated scientific research station in the Antarctic John Carpenter's *The Thing* is best known for some of the most startling visual effects surreal lurid shocking perversions of the human body ever committed to celluloid At London's National Film Theatre in 1995 Quentin Tarantino named *The Thing* as one of his favorite films Yet when it was released in 1982 it fared badly against another alien encounter movie *E T* and critics panned it But *The Thing* has aged well and its influence can now be detected in everything from *Seven* to *Red Dwarf* and *The X Files* In her elegant and trenchant study Anne Billson argues that *The Thing* has never been given its due For Billson it's a landmark movie that brilliantly refines the conventions of classic horror and science fiction combining them with humor Lewis Carroll logic strong characterizations and prescient insight The idea of an alien species mutating and inhabiting humans resonates all too chillingly with the mad cow disease crisis and today's new and ever more powerful genetic technology

Liquid Metal Sean Redmond, 2004 This reader brings together a great number of what are regarded to be the seminal essays that have opened up the study of science fiction to serious critical interrogation It includes key essays by writers such as J P Telotte Susan Sontag and Peter Biskind *Vampires from Another World* Simon Bacon, 2021-06-04 This book begins at the intersection of *Dracula* and *War of the Worlds* both published in 1897 London and describes the settings of Transylvania Mars and London as worlds linked by the body of the vampire It explores the vampire from another world in all its various forms as a manifestation of not just our anxieties around alien others but also our alien selves Unsurprisingly many of the tropes these novels generated and particularly the themes they have in common have been used and adapted by vampire narratives that followed From *Nosferatu* to *Alien* *Interstellar* *Stranger Things* and many others this book examines how these narratives have evolved since the end of the nineteenth century Bringing together texts and films from across the 19th 20th and 21st centuries from the far reaches of outer space and the distant future it concludes that the unexpected and the unknown are not always to be feared and that humanity does have the power to write its own future **The Thing** Phil

Hore,2023-08-14 In 1982 Universal Pictures a studio famous for its monster movies unleashed a new terror on the silver screens of the world that would change everything not that anyone knew that at the time Today John Carpenter s THE THING consistently ranks in the top of favourite or influential film lists but when it was first released it was not only considered a bomb reviewers used words like obscene gross and instant junk For the first time we look at the history of the entire THING franchise not just the 1982 film or its prequel nor the original 1951 version The Thing from Another World In this book we look at the radio versions the comics novels computer games music and how from a 1931 novella by John W Campbell Jr The Thing began infecting our lives and eventually took over the world by initiating one of the longest media franchises in history and influencing many others like ALIEN Dr Who and the X files Interviewing many of those involved we ll look at the marketing strategies the reviews the blunders censorship and yes we may even figure out exactly why The Thing failed at the box office in 1982
