[Merchants of Canton and Macao](#) Paul A. Van Dyke, 2018-02-27 Merchants were central to the huge growth in China's foreign trade and contributed to the development of world markets and networks Merchants of Canton and Macao Success and Failure in Eighteenth Century Chinese Trade brings together much new research about the inner workings of the merchants of Canton and Macao The book studies in detail the leading Chinese merchants and merchant families as well as the porcelain and silk trades By examining the successes and failures of dozens of Chinese merchants involved in foreign trade it provides fresh insights into China's unique form of capitalism and her role in the rise of global commerce Van Dyke's conclusions on the nature of Qing policy towards foreign trade are bold original and supported by intensive research In contrast to the traditional focus on British and American trade his research draws on archives in multiple languages spread around the world Like its predecessor this volume offers a detailed and vivid reconstruction of business practices based on a remarkable collection of archival sources in Chinese and diverse European languages It will be especially welcome by economic historians as well as anyone who wants to understand global history as it played out in a particular place R Bin Wong Distinguished Professor of History and director of the Asia Institute UCLA Once again Paul Van Dyke has plumbed the depths of the archives to provide us with an extraordinary catalogue of the activities of European and Chinese traders during the heyday of the Canton trade In this second volume of his encyclopedic study Van Dyke focuses in detail on the transactions that took place between foreign private and company traders and Chinese licensed merchants Madeleine Zelin Dean Lung Professor of Chinese Studies Columbia University This is a great study which will be the ultimate work on the subject for many years to come It is as complete as the available documentation at present makes possible it is concise well organized and the subject is researched with great thoroughness Christiaan J rg author of *Porcelain and the Dutch China Trade*
