Tigers Child:

Tiger's Child Torey Hayden, 1995-03-06 From acclaimed author Torey Hayden comes a relatable memoir about a special education teacher who recounts a transforming and transformative relationship with a former student who overcame abuse. Special education teacher Torey Hayden's first book *One Child* was an international bestseller, thrilling readers on every continent. Their hearts were captured by Sheila, a silent, troubled girl who had been abandoned on a highway by her mother and abused by her alcoholic father and who refused to speak. As Hayden writes in the prologue to this book, "This little girl had a profound effect on me. Her courage, her resilience, and her inadvertent ability to express that great, gaping need to be loved that we all feel in short, her humanness brought me into contact with my own." Since then, Hayden has gone on to write books about many of her students, but her fans continue to ask her, "What happened to Sheila?" *The Tiger's Child* is her response. Here, Hayden tells how Sheila, now a young woman, finally came to terms with her nightmare childhood. When Hayden was working on *One Child*, she showed the manuscript to Sheila, then a teenager, and was astonished to find that Sheila remembered almost nothing of her troubled younger years. She had no recollection of her many clashes with her teacher as Hayden tried to break through her emotional pain. And although Hayden had managed to get Sheila to communicate and become an active and lively child, Sheila's home life was still very troubled. Her father had been sent to prison when she was eight, and Sheila had run away from a series of foster homes until finally she was placed in a children's home. But as Hayden continued to renew her relationship with the teenage Sheila, the memories slowly came back, bringing with them feelings of abandonment and hostility. Overwhelmed by the intensity of her awakening emotions, Sheila was driven to suicidal despair. *The Tiger's Child* is the touching, inspiring story of how a maturing Sheila came to perceive her mother not as a monster who willfully cast off her eldest child, but as a weak, forlorn, ordinary human being. Able to appreciate her own strength and resilience, Sheila at last is free to overcome the haunting legacy of child abuse.

The Tiger Child Joanna Troughton, 1996 This lively folk tale from Orissa, India, explains why tigers eat their food uncooked and why cats live with people. The tiger child is sent to fetch some more fire from the village, but on the way he gets distracted by his friends. By the time he gets to the village, he has forgotten what he has been sent to fetch.

Young Children Learning Barbara Tizard, Martin Hughes, 1984 His fascinating account of an unusual research project challenges many assumptions about how young children learn and how best to teach them. In particular, it turns upside down the commonly held belief that professionals know better than parents how to educate and bring up children, and it throws doubt on the theory that working-class children underachieve at school because of a language deficit at home.

Children And Their Primary Schools Andrew Pollard, 2021-12-24 First published in 1987. Several of the chapters in this book were presented at a symposium held at the British Educational Research Association Conference in Bristol in September 1986. This volume's title is a deliberate echo of the title of the Plowden Report (CACE 1967). It is now twenty years since Plowden was published, and the chapters in this collection constitute an attempt to present a new

perspective on one of the central assumptions which underpinned the Report on the nature of children Within the book there are two themes of particular importance The first is focussed on how children themselves are perceived bearing in mind new developments in child psychology and in sociological studies of children s perspectives and behaviour in schools The second concerns the implications which such developments may have for teaching and learning processes in classrooms
