pension funds and bank trust departments placed their capital primarily in investment grade securities and only five percent of the American companies with sales over 35 million qualify to issue investment grade bonds In effect ninety five percent of the nation s mid sized firms were frozen out of the public debt market Junk bonds changed all that In addition Yago argues that the much maligned divestitures associated with junk bond funded buyouts were not necessarily destructive many sold off units he writes flourished under new management structures Yago concludes that we have witnessed a fundamental restructuring of corporate America made possible in part by high yield financing The result is a bright future as American businesses return to productivity and competitiveness one that will benefit managers stockholders and workers alike
