*The Autonomous Man* Dean Turner,1970      **Escape from God** Dean Turner,1991      **A Philosophy of Person and Identity** Monica Meijnsing,2022-08-04 This book discusses the themes of personhood and personal identity It argues that while there is a metaphysical answer to the question of personal identity there is no metaphysical answer to the question of what constitutes a person The author argues against both body mind dualism and physicalism and also against the idea that there is some metaphysically real category of persons distinct from the category of human beings or human organisms Instead the author presents neutral monist autopoietic enactivist kind of metaphysics of the human being and a relational and completely human dependent notion of a person The tools used in these arguments include conceptual argumentation and empirical case studies Using both personal experiences and studies of cultures all over the world the author examines dualism between mind and body The author discusses real people who seem to live a Cartesian life as somehow disembodied minds as well as the concept of the person The author uses the concluding chapters to present their own views arguing that questions about our identity should be separated from questions of our personhood as well as the concept of personhood This volume is of interest to scholars of philosophy of mind      Union Catalog of the Graduate Theological Union Graduate Theological Union.
