The Ballad As Song

David P. DeVenney

The Ballad As Song:

The Ballad as Song Bertrand H. Bronson, 2023-11-15 The Ballad as Song is a collection of essays tracing the author's decades long exploration of the intersection between traditional ballads and their accompanying tunes. Initially approached as a casual hobby, the project grew into a comprehensive inquiry into the melodies of Child ballads and their historical and cultural significance. The essays aim to bring together folk song and balladry, offering a perspective on how these elements interact and evolve through traditional transmission. The author reflects on challenges in classifying melodies, understanding modal shifts, and analyzing the interplay of text and tune in areas that remain underexplored in the field of folk music studies. While the essays adhere to a consistent viewpoint, they also provide insights into enduring problems in ballad research, such as melodic identity, variation, and the transmission of tradition. Though not aligned with contemporary trends in social theory, the collection emphasizes the value of historical perspective, underscoring the importance of roots in understanding folk music. Through these essays, the author seeks to engage with current assumptions and open up new directions for comparative and analytical approaches to traditional balladry and its music. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1969.

The Ballad as Song by Bertrand Harris Bronson ..., 1969 *Poetic Origins and the Ballad* Louise Pound, 1921 **The Ballad of America: the History of the United States in Song and Story. (With the Words and Music of More Than 125 Songs.)**, 1966 **The New Broadway Song Companion** David P. DeVenney, 2009-07-29 This is a completely revised and expanded second edition of *The Broadway Song Companion*, the first complete guide and access point to the vast literature of the Broadway musical for the solo performer. Designed with the working actor in mind, the volume lists every song from over 300 Broadway shows, including at least 90 more than the first edition. Organized by show, each song is annotated with the name of the character(s) who sing(s) the song, the vocal range, and a style category such as uptempo, narrative ballad, swing ballad, moderate character piece, etc. Several indexes are supplied, organizing the songs by voice type (soprano, baritone, etc.) and song style (vocal arrangement, duets, trios, chorus, etc.) and composer and lyricist, allowing increased access to the repertoire. For instance, a soprano looking for a ballad to sing will find every song in that category in the index. All solos, duets, and trios are indexed in this manner, with quartets and larger ensembles listed by voice type. Furthermore, the instant breakdowns show how many lead characters who sing what song and the range requirements of each character will be a valuable resource to directors and producers.
