The Kgb:

The KGB's Poison Factory Boris Volodarsky, 2013-11-30 In late November 2006 the world was shaken by the ruthless assassination in London of Alexander Litvinenko a former Lt Col of the Russian security service FSB The murder was the most notorious crime committed by the Russian intelligence on foreign soil in over three decades The author Boris Volodarsky who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko s widow is a former Russian military intelligence officer and an international expert in special operations His narrative reveals that since 1917 beginning with Lenin and his Cheka the Russian security services have regularly carried out bespoke poisoning operations all over the world to eliminate the enemies of the Kremlin The author proves that the Litvinenko s poisoning is just one episode in the chain of murders that continues until the present day Some of these assassinations or attempted assassinations are already known others are revealed here for the first time Uniquely Volodarsky has had a personal involvement in almost every each of the 20 cases from the radioactive thallium poisoning of the Soviet defector Nikolai Khokhlov in Frankfurt in September 1957 to the ricin umbrella murder of the Bulgarian dissident Georgi Markov in London in 1978 Here for the fan of murder thrillers and modern history alike is a cracking good read In brilliant light we see what lay for nearly a century behind the London polonium poisoning of British citizen Alexander Litvinenko former Russian It was just one recent hit by the world s most prolific serial killer the Russian state With original research guided by his insider s eye and scholarly care Boris Volodarsky recounts scores of murders Assassination emerges as state policy as institutionalized bureaucracy as day to day routine as laboratory science as a branch of medicine researching ways not to stave off death but to deliver it in apparently innocent or accidental forms and as engineering technology devising ever new devices to meet each new requirement from umbrella tips and cigarette cases and rolled up newspapers to Litvinenko s teacup Tennent H Bagley former CIA chief of Soviet Bloc counterintelligence *Inside the KGB* Aleksei Myagkov, 1976 Bijzonderheden over werkwijze en onderlinge verhoudingen in de KGB door een jonge ex agent die in 1974 vanuit Oost Duitsland naar West Berlijn vluchtte **The KGB's Literary Archive** Vitalii Shentalinskiï, 1997 Account of the repression of writers in the Soviet Union based on the KGB s own file California.
