Sex Worker and Pig Struggle for Liberation Alpha Lamb, This story is about two minorities struggling for liberation from human bondage Sex Worker better known as Prostitute is often described as the world s oldest profession or among the oldest Sadly for herself if not for all others she has been persecuted from pre history ever since She may have been tolerated as an exception but never widely accepted Does society owe her the obligation of rescue from fallen slavery or should she be deterred from practising her trade by stiff punishment in order to maintain the hygiene of the social fabric What does she think and does it matter what she thinks The story begins with a girl forced into prostitution by destitution until she fights back together with her fellow sister mates against inherent frustration cruelty and prejudice Her argument is that she has an inalienable human right to dispose her body and sex in private in whichever way she desires especially when such disposal is essential to earn a living The imposition of public morality as her personal responsibility is what she cannot accept and endure But it is more than that since she is also in the other minority She is a Pig an itinerant animal dominated no shorter and no less by human civilization than what has been suffered by Prostitute It is a moot point whether Prostitute or Animal has suffered more or considered more despicable Presumably Animal could have it easier since they are supposed to be of the lower order with no intelligence whatsoever until the relatively recent advent of animal right Perhaps Animal should be grateful to human civilization for survival and

multiplication too whereas Prostitute can always be found in human survival The story brings up the coincidence of Prostitute Struggle and Pig Struggle initially each on its own until reaching the stage when each finds the need to join force and cause though a common front is anything but a smooth ride The first public confrontation against the establishment as can be expected proves to serve not much more than a learning curve However the seed once buried and unburied would be allowed time and space to take root Nourished non stop by where they come from the denizens of the joint struggle will not waver or lose hope for an eventual outcome The author does not pretend to be entirely on their side morally Take the story as a science fiction if you like Whether it will come to pass is a matter of opinion
