Eklou, Mr. Tidiane Kinda, Vatsal Nahata, Umang Rawat, Ara Stepanyan, 2023-09-15 The ASEAN 5 region which comprises Indonesia Malaysia the Philippines Singapore and Thailand has benefited substantially from its integration to the world economy particularly through trade Rising risks of geoeconomic fragmentation could reverse some gains reaped from globalization over the past decades In this context advancing regional integration among ASEAN 5 members has the potential to enhance the region's resilience against external headwinds This paper shows that despite sizeable progress particularly in regional trade integration there is room to advance financial integration which also lags trade integration in ASEAN 5 Empirical findings from the paper illustrate that a higher degree of regional financial integration could generate sizeable output gains for the region Using firm level data the paper highlights that digitalization an area where the region is thriving can support regional integration by helping firms better integrate into global value chains with the benefits being stronger for small and medium sized enterprises The results also suggest that digitalization can help firms move up the value chain through the production of more sophisticated products often coined as higher export sophistication

when other reasons existed military efficiency was the one most often evoked by defense officials to justify a change in racial policy Morris J MacGregor Jr received the A B and M A degrees in history from the Catholic University of America He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant Before joining the staff of the U S Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff *The Method of Numerical Integration in Exterior Ballistics; Ordnance Textbook* United States.
