The Last Landscape:

The Last Landscape William Hollingsworth Whyte,1970 **The Last Landscape [by] William H. Whyte [Anchor Books Ed.]**. William H. Whyte (Jr.), **The Last Landscape** William Hollingsworth Whyte#Jr.#,1970 *The Last Landscape* William H. Whyte,1970 **The Bulldozer in the Countryside** Adam Rome,2001-04-23 The concern today about suburban sprawl is not new In the decades after World War II the spread of tract house construction changed the nature of millions of acres of land and a variety of Americans began to protest against the environmental costs of suburban development By the mid 1960s indeed many of the critics were attempting to institutionalize an urban land ethic The Bulldozer in the Countryside was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970 For scholars and students of American history the book offers a compelling insight into two of the great stories of modern times the mass migration to the suburbs and the rise of the environmental movement The book also offers a valuable historical perspective for participants in contemporary debates about the alternatives to sprawl *Index of American Periodical Verse 1983* Rafael Catalá,James D. Anderson,1985-12 The Index of American Periodical Verse is an important work for contemporary poetry research and is an objective measure of poetry that includes poets from the United States Canada and the Caribbean as well as other lands cultures and times It reveals trends in the output of particular poets and the cultural influences they represent The publications indexed cover a broad cross section of poetry literary scholarly popular general and little magazines journals and reviews **The Last Landscape** Charles Abrams,1968 *Follies in America* Kerry Dean Carso,2021-08-15 Follies in America examines historicized garden buildings known as follies from the nation s founding through the American centennial celebration in 1876 In a period of increasing nationalism follies such as temples summerhouses towers and ruins brought a range of European architectural styles to the United States By imprinting the land with symbols of European culture landscape gardeners brought their idea of civilization to the American wilderness Kerry Dean Carso s interdisciplinary approach in Follies in America examines both buildings and their counterparts in literature and art demonstrating that follies provide a window into major themes in nineteenth century American culture including tensions between Jeffersonian agrarianism and urban life the ascendancy of middle class tourism and gentility and social class aspirations *The Apollonian Clockwork* Louis Andriessen,Elmer Schönberger,2025-10-01 I think my music deserves to be considered as a whole Igor Stravinsky remarked at the end of a long and restless career and that is exactly what the authors of The Apollonian Clockwork do In 1982 convinced that there is no essential difference between early and late Stravinsky Louis Andriessen and Elmer Sch nberger were the first to write a monograph on the composer which radically breaks with the habit of dividing his works into Russian neoclassical and serial In an essay which continually shifts in its approach style and perspective the authors elaborate on their insight that a single immutable compositional attitude underlies the whole of

Stravinsky's oeuvre By this token the book not only offers an analysis of the composer's protean work and artistry but takes example by it as well The Assessment of German Cultural Landscapes Jessica Matloch, 2018-03-09 Jessica Matloch examines the importance of regional cultural landscape for their residents using the approach of willingness to pay She identifies that almost each resident of every region prefers water landscapes Furthermore landscape perception is often influenced by education and by the resident's relationship with nature The impact of the relationship to the region differs between regions and resident groups Regarding the involvement in or for the landscape the results suggest that specific groups of residents are more willing to volunteer in and for regional landscapes than others The analyses illustrate that the region is used the most to relax and the least for cultural purposes **Rational Landscapes and Humanistic Geography**

Edward Relph, 2015-07-30 This book first published in 1981 explores why it is that the modern built environment while successfully providing material comfort and technical efficiency none the less breeds despair and depression rather than inspires hope and commitment The source of this paradox where material benefits appear to have been gained only at the expense of intangible values and qualities is found in humanism the persistent and powerful belief that all problems can be solved through the use of human reason But humanism has become increasingly confused rationalistic callously devoted to efficiency and authoritarian These confusions and contradictions together with the anti nature stance of humanism and its failure to teach humane behaviour lead the author to conclude that humanism is best rejected Such rejection does not advocate the inhuman and anti human but requires instead a return to the humility that lies at the origin of humanism a respect for objects creatures environments and people This environmental humility is explored in the context of individuality of settings ways of seeing landscapes appropriation and ways of building places This title will be of interest to students of human geography **Works** John Ruskin, 1904 Bulletin, 1913 Park and Cemetery and Landscape Gardening, 1928

Cultural Landscapes Richard W. Longstreth, 2008 Preservation has traditionally focused on saving prominent buildings of historical or architectural significance Preserving cultural landscapes the combined fabric of the natural and man made environments is a relatively new and often misunderstood idea among preservationists but it is of increasing importance The essays collected in this volume case studies that include the Little Tokyo neighborhood in Los Angeles the Cross Bronx Expressway and a rural island in Puget Sound underscore how this approach can be fruitfully applied Together they make clear that a cultural landscape perspective can be an essential underpinning for all historic preservation projects Contributors Susan Calafate Boyle National Park Service Susan Buggey U of Montreal Michael Caratzas Landmarks Preservation Commission NYC Courtney P Fint West Virginia Historic Preservation Office Heidi Hohmann Iowa State U Hillary Jenks USC Randall Mason U Penn Robert Z Melnick U of Oregon Nora Mitchell National Park Service Julie Riesenweber U of Kentucky Nancy Rottle U of Washington Bonnie Stepenoff Southeast Missouri State U Richard Longstreth is professor of American civilization and director of the graduate program in historic preservation at George Washington
