The Secret Discovery Of Australia:

Navigating by the Southern Cross Kenneth Morgan,2021-01-28 In this comprehensive study Kenneth Morgan provides an authoritative account of European exploration and discovery in Australia The book presents a detailed chronological overview of European interests in the Australian continent from initial speculations about the Great Southern Land to the major hydrographic expeditions of the 19th century In particular he analyses the early crossings of the Dutch in the 17th century the exploits of English buccaneer adventurer William Dampier the famous voyages of James Cook and Matthew Flinders and the little known French annexation of Australia in 1772 Introducing new findings and drawing on the latest in historiographical research this book situates developments in navigation nautical astronomy and cartography within the broader contexts of imperial colonial and maritime history

Producing the Pacific Mercedes Maroto Camino,2005-01-01 Producing the Pacific offers the reader an interdisciplinary reading of the maps narratives and rituals related to the three Spanish voyages to the South Pacific that took place between 1567 and 1606 These journeys were led by Ivaro de Menda a Pedro Fern ndez de Quir s and Isabel Barreto the first woman ever to become admiral of and command a fleet Mercedes Maroto Camino presents a cultural analysis of these journeys and takes issue with some established notions about the value of the past and the way it is always rewritten from the perspective of the present She highlights the social political and cultural environment in which maps and narratives circulate suggesting that their significance is always subject to negotiation and transformation The tapestry created by the interpretation of maps narratives and rituals affords a view not only of the minds of the first men and women who traversed the Pacific but also of how they saw the ocean its islands and their peoples Producing the Pacific should therefore be of relevance to those interested in history voyages colonialism cartography anthropology and cultural studies The study of these cultural products contributes to an interpretive history of colonialism at the same time that it challenges the beliefs and assumptions that underscore our understanding of that history
