Groundless Paths Karl Brunnholzl, 2012-08-14 The Abhisamayalamkara summarizes all the topics in the vast body of the prajāpāramitā sūtras. Resembling a zip file, it comes to life only through its Indian and Tibetan commentaries. Together, these texts not only discuss the hidden meaning of the prajāpāramitā sūtras, the paths and bhūmis of śrāvaka, pratyekabuddha, and bodhisattva, but also serve as contemplative manuals for the explicit topic of these sūtras: emptiness, and how it is to be understood on the progressive levels of realization of bodhisattvas. Thus, these texts describe what happens in the mind of a bodhisattva who meditates on emptiness, making it a living experience from the beginner's stage up through buddhahood. Groundless Paths contains the first in-depth study of the Abhisamayalamkara, the text studied most extensively in higher Tibetan Buddhist education, and its commentaries from the perspective of the Nyingma School of Tibetan Buddhism. This study consists mainly of translations of Maitreya's famous text and two commentaries on it by Patrul Rinpoche. These are supplemented by three short texts on the paths and bhūmis by the same author, as well as extensive excerpts from commentaries by six other Nyingma masters, including Mipham Rinpoche. Thus, this book helps close a long-standing gap in the modern scholarship on the prajāpāramitā sūtras and the literature on paths and bhūmis in Mahāyāna Buddhism. Arya Maitreya's Ornament of Clear Realization, with its Indian and Tibetan commentaries, presents the complex dynamics of the path to liberation as a succession of realizations of the empty nature of all phenomena. This presentation is a powerful antidote to whatever two-dimensional views we might hold about spiritual experience and the journey to enlightenment.

Consciousness and the Prospects of Physicalism Derk Pereboom, 2011-03-22 In this book, Derk Pereboom explores how physicalism might best be formulated and defended against the best anti-physicalist arguments. Two responses to the knowledge and conceivability arguments are set out and developed. The first exploits the open possibility that introspective representations fail to represent mental properties as they are in themselves; specifically, that introspection represents phenomenal properties as having certain characteristic qualitative natures which these properties might actually lack. The second response draws on the proposal that currently unknown fundamental intrinsic properties provide categorical bases for known physical properties and would also yield an account of consciousness. While there are non-physicalist versions of this position, some are amenable to physicalism. The book's third theme is a defense of a nonreductive account of physicalism. The type of nonreductivism endorsed departs from others in that it rejects all token identity claims for psychological and microphysical entities. The deepest relation between the mental and the microphysical is constitution, where this relation is not to be explicated by the notion of identity.

The Felt Meanings of the World Quentin Smith,1986 In a critical dialogue with the metaphysical tradition from Plato to Hegel to contemporary schools of thought the author convincingly argues that traditional rationalist metaphysics has failed to accomplish its goal of demonstrating the existence of a divine cause and moral purpose of the world To replace the defective rationalist metaphysics the author builds a new metaphysics on the idea that moods and affects make manifest the world s felt meanings he argues that each feature of the world is a felt meaning in the sense that each feature is a source of a feeling response if and when it appears The author asserts that we must synthesize our two ways of knowing poetic evocations and exact analyses in order to decide which mood or affect is the appropriate appreciation of any given feature of the world Smith gives evocative and exact explications of such features as the world s temporality appearance and mind independency as these features appear in the appropriate recitations An English Grammar, comprehending the principles and rules of the language, ... illustrated by appropriate Exercises, and a Key to the exercises.
