

**WHY NATIONS GO TO WAR**  
BY JOHN G. STOESSINGER

**Paperback:** 288 pages

**Publisher:** Wadsworth Publishing; 8th (August 04 2000)

This book was really quite interesting. Stoessinger writes in a lucid manner, which makes the book a very easy read. However, I have two problems with this book. My first problem with this book is its emphasis on the individual, as well as the criteria of the analysis. Stoessinger blames key leaders and individuals as responsible for the various wars addressed throughout this book (i.e. WWI, WWII, etc). This seems pretty reductionist to me when there are other levels of analysis to consider as well. To make matters worse, Stoessinger reduces his personal biases against, say, Hitler into a characterization of Hitler as "mad." Well, Hitler might have been mad, but there is more to Hitler than simple "madness." Second, my problem with this book is that although there are footnotes, Stoessinger purports to see into the mind of leaders such as the Kaiser, Hitler etc. without proving his authority or where he received such personal insights. Oh, I guess I have a third criticism as well. The title of this book is "Why Nations Go to War;" if understanding why nations to go war is the purpose of writing this book, I don't think that devoting one chapter on one conflict (about 20-25 pages) is going to explain why nations to go to war.

Why Nations Go To War is a fantastic book, and gives the reader remarkable insight into the precipitations of war. While analyzing both the interactions between national leaders and their thoughts in depth, this book is an excellent way to further your understanding of the causes of war. After reading this book, you will easily be able to understand many present-day conflicts, and where and why they began. Why Nations Go To War talks about the Persian Gulf War, Kosovo, the wars between India and Pakistan, and offers valuable background info on a question that has been in the news for some time: Why do the Muslims hate the Jews, and vice-versa?, and those who would simply like to know what's going on.

The book is a valuable contribution for intelligence analysts wrestling with the strategic intelligence considerations when preparing for war. Stossinger's review of 8 case studies (WWI, Hitler's attack on Russia, Korea, Vietnam, India and Pakistan, Israel and the Arabs, Saddam Hussein, and the Balkans) distills the following determinants as to

**What Causes War?** Greg Cashman, 2013-07-29 Now in a thoroughly revised and updated edition this classic text presents a comprehensive survey of the many alternative theories that attempt to explain the causes of interstate war For each theory Greg Cashman examines the arguments and counterarguments considers the empirical evidence and counterevidence generated by social science research looks at historical applications of the theory and discusses the theory's implications for restraining international violence Among the questions he explores are Are humans aggressive by nature Do individual differences among leaders matter How might poor decision making procedures lead to war Why do leaders engage in seemingly risky and irrational policies that end in war Why do states with internal conflicts seem to become entangled in wars with their neighbors What roles do nationalism and ethnicity play in international conflict What kinds of countries are most likely to become involved in war Why have certain pairs of countries been particularly war prone over the centuries Can strong states deter war Can we find any patterns in the way that war breaks out How do balances of power or changes in balances of power make war more likely Do social scientists currently have an answer to the question of what causes war Cashman examines theories of war at the individual substate nation state dyadic and international systems level of analysis Written in a clear and accessible style this interdisciplinary text will be essential reading for all students of international relations

*Crisis and War* Patrick James, 1988-03-01 His analysis suggests that certain explanations have not been sufficiently considered in previous works For example prior domestic strife can be linked to the escalation of foreign conflict in an impressive number of cases a discovery which runs counter to the consensus which has emerged over the last two decades among political scientists Prior research on causes of war has often lacked rigour James has tried to remedy this through a long term comparative approach to the subject matter While *Crisis and War* follows the tradition of aggregate research statistical analysis is always connected to particular events through discussions of situations and leaders in both diplomatic history and contemporary world politics James comprehensive and original approach to past theories both clarifies and critiques them

**Why Nations Go to War** John George Stoessinger, 1993 What is the role of the personalities of leaders who take their nations or their following across the threshold into war WHY NATIONS GO TO WAR i is built around 10 case studies culminating in the two new wars that ushered in the twenty first century Afghanistan and Iraq

*Catholic Realism Abolition of War* David Carroll Cochran, 2014-01-09 Argues that the abolition of war like that of slavery and other forms of social violence is possible using the principles and history of the Just War tradition in Catholic theology and philosophy

**War in Europe?** Thibault Muzergues, 2022-04-19 In this highly provocative and documented book Thibault Muzergues describes how war in Europe is now more likely than it has been for at least the past 30 years how it might come back to Europe and what Europeans can do

to avoid getting drawn again in fratricide conflicts Many consider Europe a continent of peace with NATO guaranteeing its security and the EU providing the political glue for a Europe Whole and Free But what if this was not the case anymore What if after a decade of crisis today s Europe was much more fragile than we thought The author challenges our assumptions about peace in Europe and forces us to face the realities of a world that has become much more dangerous Far from being apocalyptic this book serves as an advance warning to the dangers both internal and external that are now closing in on Europe and suggests solutions to avoid them This book will be key reading for those interested in European politics and history the European Union security and strategic studies and more broadly to current affairs and international relations

**The Analysis of International Relations** Karl Wolfgang Deutsch,1988 This book focuses on the decision making capability of nation states and their vulnerability to error as well as dramatic global changes and changes in the needs and behavior of large segments of the population The author examines theories of game and conflict general systems and communication and control New to this edition is a chapter dealing with international terrorism and clandestine warfare

**Confronting War** Ronald J. Glossop,1983 This updated and revised through 2000 edition of an immensely successful textbook reflects upheavals in the global geopolitical climate and examines why countries continue to build war arsenals in a time of relative peace As an increasing number of countries gain nuclear capabilities and the number of intranational and regional conflicts grow it becomes apparent that the end of the Cold War did not bring an end to the threat of war The book is broken into four parts Part One Introduction to the War Problem discusses the nature of the war problem the conceptual framework and the historical framework Part Two Causes of War talks about the cause of war group competition and group identification other views about causes of war and the value of war In Part Three The Contemporary Situation the reader will learn about ideological aspects national historical aspects military aspects institutional aspects and legal aspects of the contemporary situation Part Four Proposals for Solving the War Problem discusses reforming the attitudes of individuals reforming the internal operation of national governments reforming the policies of national governments and reforming the international system It also includes maps illustrations and charts which will be especially helpful to the reader *Voices from Captivity* Robert C. Doyle,1994 Doyle shows that though setting and circumstances may change POW stories share a common structure and are driven by similar themes Capture incarceration isolation propaganda torture capitulation or resistance death spiritual quest escape liberation and repatriation are recurrent key motifs in these narratives The Cumulative Book Index ,1994 A world list of books in the English language An Introduction to Political Science Mark R.
