Planner Hybrid Work:

Facilities Planning And Design: An Introduction For Facility Planners, Facility Project Managers And Facility Managers (Second Edition) Jonathan Khin Ming Lian, 2022-12-28 This book focuses on the ten essentials of facilities planning and design. It covers topics such as strategic planning, space standards, architectural programming, site selection, master planning, environmental planning, capital improvement planning, workplace planning, and design and space management. Examples will be drawn from the planning and design of airports and universities, which are large organizations with extensive campuses and are asset heavy in terms of buildings. This second edition has been extensively updated with current and new examples, case studies, and references. By learning about the planning and design processes as it relates to facilities, students and facility professionals will be able to align facilities planning and design with the organization's strategic priorities, manage design consultants by understanding the planning and design process, manage the planning and design of spaces at different scales, and manage the use of existing space effectively. The book is designed such that its chapters may be read either sequentially or as individual standalone references or resources for specific aspects of facility planning, management, and design.

[Making Sense of Planning and Development for the Post-Pandemic Cities](#) Kh Md Nahiduzzaman, 2024-09-08 This book holds a distinguished promise of an intellectual understanding and complete account of that shifts in laying out resilient planning, development, and policy landscapes for the cities to come. The approach offers a unique perspective on planning and development in the post-pandemic era, addressing the interconnectedness of diverse spatial, social, cultural, economic, demographic, and political aspects. It provides insights into the transformational behavior of cities and citizens, explores the influence of remote work on the real estate market, emphasizes the need for resilient infrastructure and adaptive planning, and reinforces the association between health infrastructure and planning for resilient cities. The book provides a comprehensive account of the shifts and challenges faced in planning and development due to climate change and the COVID-19 pandemic. It explores transformational urban planning, sociocultural, and economic landscapes and addresses topics including land use changes, transformational real estate market, urban recreational space, adaptive infrastructure, and the need for resilient planning. It offers valuable insights for urban designers, architects, geographers, city planners, policymakers, and public officials seeking to enhance city resilience in the post-pandemic era. The intended readership of the book includes urban designers, architects, city planners, geographers, policy makers, and public officials. It caters to individuals interested in gaining a critical understanding of the interconnectedness between various spatial, social, cultural, economic, demographic, and political aspects. The content level is academic, offering scholarly insights and a unique post-pandemic perspective on enhancing city resilience.
