Andrew Marshall is a Pentagon legend. For more than four decades he has served as Director of the Office of Net Assessment, the Pentagon's internal think tank, under twelve defense secretaries and eight administrations. Yet Marshall has been on the cutting edge of strategic thinking even longer than that. At the RAND Corporation during its golden age in the 1950s and early 1960s, Marshall helped formulate bedrock concepts of US nuclear strategy that endure to this day. Later at the Pentagon, he pioneered the development of net assessment, a new analytic framework for understanding the long-term military competition between the United States and the Soviet Union. Following the Cold War, Marshall successfully used net assessment to anticipate emerging disruptive shifts in military affairs, including the revolution in precision warfare and the rise of China as a major strategic rival of the United States.

In *The Last Warrior*, Andrew Krepinevich and Barry Watts, both former members of Marshall's staff, trace Marshall's intellectual development from his upbringing in Detroit during the Great Depression to his decades in Washington as an influential behind-the-scenes advisor on American defense strategy. The result is a unique insider's perspective on the changes in US strategy from the dawn of the Cold War to the present day. Covering some of the most pivotal episodes of the last half century and peopled with some of the era's most influential figures, *The Last Warrior* tells Marshall's story for the first time in the process, providing an unparalleled history of the evolution of the American defense establishment.

The Banished Lands are engulfed in war and chaos. The cunning Queen Rhin has conquered the west and High King Nathair has the cauldron, most powerful of the seven treasures. At his back stands the scheming Calidus and a warband of the Kadoshim, dread demons of the Otherworld. They plan to bring Asroth and his host of the Fallen into the world of flesh, but to do so they need the seven treasures. Nathair has been deceived, but now he knows the truth. He has choices to make, choices that will determine the fate of the Banished Lands. Elsewhere, the flame of resistance is growing. Queen Edana finds allies in the swamps of Ardan. Maquin is loose in Tenebral, hunted by Lykos and his corsairs. Here he will witness the birth of a rebellion in Nathair's own realm. Corban has been swept along by the tide of war. He has suffered, lost loved ones, sought only safety from the darkness. But he will run no more. He has seen the face of evil, and he has set his will to fight it. The question is how. With a disparate band gathered about him—his family, friends, giants, fanatical warriors, an angel, and a talking crow—he begins the journey to Drassil, the fabled fortress hidden deep in the heart of Forn Forest. For in Drassil lies the spear of Skald, one of the seven treasures, and here it is prophesied that the Bright Star will stand against the Black Sun.
