others were intentional and some resulted from causes still unknown Get the full meticulous account of the fascinating people involved in these flights the mistakes they made and the ways in which their flight of no return affected the world Pilot and aviation writer Steven A Ruffin covers the entire 230 year span of manned flight in all types of aircraft through war and peace Balloons blimps biplanes jets and spaceships have all suffered mishaps over the years Don t miss the mystery adventure intrigue and a sprinkling of the supernatural and extraterrestrial in *Flights of No Return* *Weekly World News* ,1990-05-08 Rooted in the creative success of over 30 years of supermarket tabloid publishing the *Weekly World News* has been the world s only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading entertainment news site

also included bombing missions over Italy ahead of an amphibious landing and on April 4 1943 one of the planes that took off from Libya to bomb Naples was the Lady Be Good a B 24D Liberator bomber with a crew that had never flown a combat mission The operation which included over a dozen planes was undone by poor flying conditions almost from the start and the Lady Be Good never even made into formation with the others attacking Naples thus flying out the mission on its own Around midnight pilot 1st Lt William J Hatton radioed for directions back to base but after that the plane and its crew were never heard from again A search and rescue effort found nothing and it would be over a decade before the remains of the plane which many assumed went down in the Mediterranean was found deep in the desert over 400 miles away from the base The mystery further deepened when no human remains were found at the crash site which suggested the crew had bailed out of the plane Eventually the remains of several members of the crew were found and it led to the stunning discovery that multiple survivors undertook a desperate journey to safety before perishing in the desert one that was actually documented in some of the men s diaries The government s Mortuary Affairs concluded The aircraft flew on a 150 degree course toward Benina Airfield The craft radioed for a directional reading from the HF DF station at Benina and received a reading of 330 degrees from Benina The actions of the pilot in flying 440 miles into the desert however indicate the navigator probably took a reciprocal reading off the back of the radio directional loop antenna from a position beyond and south of Benina but on course The pilot flew into the desert thinking he was still over the Mediterranean
