The Last Navigator:

The Last Navigator Stephen D. Thomas,1988 **The Last Navigator** Steve Thomas,2025-11-25 The classic account of traditional Micronesian navigation and the last navigator Mau Piailug who fought to preserve it now available in a revised edition illustrated in full color As a young man piloting a small sailboat across the Pacific Steve Thomas developed a fascination with ancient methods of navigation He learned that for thousands of years the peoples of Oceania had sailed unerringly across the Pacific without compass or charts guided only by natural signs stars waves and the flight paths of birds In search of this secret knowledge Thomas traveled to the tiny island of Satawal in Micronesia home to Mau Piailug one of the few surviving paliuw or navigators In **The Last Navigator** Thomas tells how he convinced Piailug to accept him as his student and teach him the closely guarded Talk of Navigation It is a remarkable book offering at once a clear and precise account of Micronesian wayfinding and the moving story of one man trying to preserve his culture against the tide of modernity Now forty years after his original journey to study under Mau Piailug Thomas has worked with a new generation of researchers including natives of Satawal to prepare this revised edition of **The Last Navigator** All Satawalese words are rendered in the now accepted orthography and the islanders originally identified by pseudonyms appear under their true names And throughout Thomas has added a generous selection of color photographs from his time on Satawal documenting the island its people and its seafaring culture This result is a lasting tribute to the spirit of the Satawalese and to the Talk of Navigation

The Last Navigator Paul Goodwin,Gordon Goodwin,2020-07-02 An extraordinary first person story of a boy from the Queensland bush who survived the dangers of Bomber Command to become Qantas last navigator A wonderful book that tells a remarkable and heroic story AIR CHIEF MARSHAL SIR ANGUS HOUSTON AK AFC RET D The choking chest tightening feeling of being trapped in a burning Lancaster enduring the uncertainty you count down the requisite 60 seconds for the tanks to blow Your skip has thrown off the fighters with yet another brilliant corkscrew manoeuvre but will you get your badly wounded bomber home Gordon Goodwin was a decorated airman and an inspired leader During World War II he served in probably the most dangerous occupation of all flying with the Pathfinders as they led bombing raids into Germany He undertook 32 Pathfinder missions including nine over Berlin and 65 missions over enemy territory with Bomber Command But to survive his childhood was perhaps a greater achievement Raised in harsh and loveless circumstances outside Brisbane during the Depression his accomplishments were remarkable This is the powerful first hand account of Gordon s dangerous and brave war experiences as recalled for his son Paul My father told me that to survive you had to surrender all hope That extraordinary formula followed by the men of Bomber Command allowed Gordon to not only come through the war but to find a successful career with Qantas finishing as its chief and possibly last navigator **The Last Navigator** is an illuminating compelling and ultimately uplifting insight into a time that should not be forgotten

The Last Navigator Steve Thomas,2023-06-30 Revised and updated edition of Steve Thomas s classic **The Last Navigator** first published in 1987

The Last Navigator J. G. Mcnease,2013-05-02 The ancient history of whales is rich with ancestral tales of superior wisdom prehistoric tradition and unending love During the cold seasons the pods would gather around the Pacific islands where the elders would perform this history for the young Through haunting songs and fluid dances stories were told of the valor of warriors the triumph of great chiefs and the celestial songs of a mythical tribe of whales called the Navigators According to tradition females are prohibited from becoming Navigators but Lani a young vivacious female whale is curious to learn more Against the will of her elders she attempts to satisfy her inquisitive mind by seeking out a mysterious old whale rumored to have a connection with the Navigators What she learns is more than she bargained for Lani leaves behind her friends her family and her duties as a female and sets out on a quest for knowledge and truth On her journey through the deep blue waters of the Pacific Ocean she discovers her destiny and changes the history of whales forevermore A story of strength self discovery love and legacy The Last Navigator resonates with anyone who has ever desired to know more or become more in life It speaks to the hearts of young and old inspiring us to follow our dreams [A People's History of Science](#) Clifford D Conner,2009-04-24 We all know the history of science that we learned from grade school textbooks How Galileo used his telescope to show that the earth was not the center of the universe how Newton divined gravity from the falling apple how Einstein unlocked the mysteries of time and space with a simple equation This history is made up of long periods of ignorance and confusion punctuated once an age by a brilliant thinker who puts it all together These few tower over the ordinary mass of people and in the traditional account it is to them that we owe science in its entirety This belief is wrong A People s History of Science shows how ordinary people participate in creating science and have done so throughout history It documents how the development of science has affected ordinary people and how ordinary people perceived that development It would be wrong to claim that the formulation of quantum theory or the structure of DNA can be credited directly to artisans or peasants but if modern science is likened to a skyscraper then those twentieth century triumphs are the sophisticated filigrees at its pinnacle that are supported by the massive foundation created by the rest of us
