The Satisfied Life:

Living The Satisfied Life Dr. Stephen Zemanek,2017-01-04 We have all asked ourselves the questions What am I doing here and Where am I going and What point is there to life The book of Ecclesiastes takes up these questions in an extremely honest and frank way Unfortunately the book of Ecclesiastes is one that is often neglected by readers of the Bible because they find it to be in their opinion overly pessimistic This book helps us understand the pessimism which those who don t have a relationship with Christ may live It will help us understand the fear and frustration of people and the foolish extents to which they go in an attempt to deal with these feelings We will also discuss the value of having a relationship with God in this life and in the life to come

A Cultural Theology of Salvation Clive Marsh,2018-10-18 There aren t many serious works of systematic theology which engage with Breaking Bad The Big Bang Theory Crazy Heart theories of capital and positive psychology as well as the Isenheim Altarpiece and Handel s Messiah This lively contemporary study of salvation does precisely that Christian doctrine cannot simply repeat what has gone before even as it recognises the value and richness of the traditions Christianity carries with it Clive Marsh acknowledges this in exploring how doctrine interweaves with life experience and cultural consumption A Cultural Theology of Salvation considers how salvation is to be understood and articulated now when the theme of redemption appears outside of Christianity in the arts and popular culture Marsh also assesses whether contemporary interest in happiness has anything to do with salvation The first part of the book sets the enquiry in the context of how theology operates as a discipline and the cultural climate in which theology has to be done The second part offers a number of case studies in art music TV film positive psychology and economic life exploring how the concerns of a doctrine of salvation are addressed directly and indirectly in Western culture The third part distils the results of the case studies in formulating a contemporary exposition of salvation and concludes by showing what this means in practice

The Spiritual Dimension John Cottingham,2005-09-15 The Spiritual Dimension offers a new model for the philosophy of religion bringing together emotional and intellectual aspects of our human experience and embracing practical as well as theoretical concerns It shows how a religious worldview is best understood not as an isolated set of doctrines but as intimately related to spiritual praxis and to the search for self understanding and moral growth It argues that the religious quest requires a certain emotional openness but can be pursued without sacrificing our philosophical integrity Touching on many important debates in contemporary philosophy and theology but accessible to general readers The Spiritual Dimension covers a range of central topics in the philosophy of religion including scientific cosmology and the problem of evil ethical theory and the objectivity of goodness psychoanalytic thought self discovery and virtue the multi layered nature of religious discourse and the relation between faith and evidence
