## **The Semantics Of Metaphor:**

*The Semantics of Metaphor* Samuel R. Levin, 2019-12-01 Originally published in 1977 *The Semantics of Metaphor* presents a theory for the metaphoric construal of deviant sentences The theory has two aspects The first relates to metaphor considered as a productive process of language and describes the mechanisms that operate in its semantic interpretation This part of the theory is presented in chapters III and IV The second aspect bears on metaphor considered in the context of poetry and develops a conception of metaphoric truth This part of the theory is presented in chapters VI and VII The study is semantic in the sense of dealing with both meaning and truth as these properties pertain to metaphor Of the remaining chapters the first isolates certain problems of a pragmatic nature from the central semantic concern chapter II follows with a survey of recent scholarship on the question of semantic deviance and chapter V compares the theory expounded in chapters III and IV with three other accounts of metaphor

*Contexts of Metaphor* Michiel Leezenberg, 2021-10-01 This study presents an approach to metaphor that systematically takes contextual factors into account It analyses how metaphors both depend on and change the context in which they are uttered and specifically how metaphorical interpretation involves the articulation of asserted implied and presupposed material It supplements this semantic analysis with a practice based account of metaphor at the conceptual level which stresses the role of sociocultural factors in concept formation

*The Pragmatics of Metaphor* Thomas S. Stroik, 1988

*A Cognitive Theory of Metaphor* Earl R. Mac Cormac, 1990 In this book Earl Mac Cormac presents an original and unified cognitive theory of metaphor using philosophical arguments which draw upon evidence from psychological experiments and theories He notes that implications of this theory for meaning and truth with specific attention to metaphor as a speech act the iconic meaning of metaphor and the development of a four valued system of truth Numerous examples of metaphor from poetry and science are presented and analyzed to support Mac Cormac's theory A Cognitive Theory of Metaphor takes up three levels of explanation metaphor as expressed in surface language the semantics of metaphor and metaphor as a cognitive process and unifies these by interpreting metaphor as an evolutionary knowledge process in which metaphors mediate between minds and culture Mac Cormac considers and rejects the radical theory that all use of language is metaphorical however this argument also recognizes that the theory of metaphor may itself be metaphorical The book first considers the computational metaphor often adopted by cognitive psychology as an example of metaphor requiring analysis In contrast to three well known philosophical theories of metaphor the tension theory the controversion theory and the grammatical deviance theory it develops a semantical anomaly theory of metaphor based on a quasi mathematical hierarchy of words In developing the theory Mac Cormac makes much needed connections between theories of metaphor and more orthodox analytic philosophy of meaning including discussions of speech acts and the logic of fuzzy sets This semantical theory of explanation is then shown to be compatible with contemporary psychological theories of memory

**The Routledge Handbook of Semantics** Nick Riemer, 2015-07-30 *The Routledge Handbook of Semantics*

provides a broad and state of the art survey of this field covering semantic research at both word and sentence level It presents a synoptic view of the most important areas of semantic investigation including contemporary methodologies and debates and indicating possible future directions in the field Written by experts from around the world the 29 chapters cover key issues and approaches within the following areas meaning and conceptualisation meaning and context lexical semantics semantics of specific phenomena development change and variation The Routledge Handbook of Semantics is essential reading for researchers and postgraduate students working in this area

**The Semantics of Analogy** Joshua P. Hochschild,2010 A reassessment of Cajetan s work on analogy is long overdue As Joshua Hochschild shows Cajetan s admirable and lucid little treatise on the topic deserves to be understood in its own right Hochschild presents it to us convincingly as a treatise in which Cajetan focuses on a properly semantic question regarding the need for some common ratio in syllogistic reasoning if such reasoning is to be saved from fallacies of equivocation Philip L Reynolds Candler School of Theology Emory University

*Mapping English Metaphor Through Time* Wendy Anderson, Ellen Bramwell, Carole Hough,2016-08-18 This volume offers an empirical and diachronic investigation of the foundations and nature of metaphor in English Metaphor is one of the hot topics in present day linguistics with a huge range of research focusing on the systematic connections between different concepts such as heat and anger fuming inflamed sight and understanding clear see or bodies and landscape hill foot river mouth Until recently the lack of a comprehensive data source made it difficult to obtain an overview of this phenomenon in any language but this changed with the completion in 2009 of The Historical Thesaurus of English the only historical thesaurus ever produced for any language Chapters in this volume use this unique resource as a basis for case studies of semantic domains including Animals Colour Death Fear Food Reading and Theft providing a significant step forward in the data driven understanding of metaphor

**Metaphor** Eva Feder Kittay,1990 This book provides a comprehensive philosophical theory explicating the cognitive contribution of metaphor Metaphor effects a transference of meaning not between two terms but between two structured domains of content or semantic fields Semantic fields construed as necessary to a theory of word meaning provide the contrastive and affinitive relations that govern a term s literal use In a metaphoric use these relations are projected into a second domain which is thereby reordered with significant cognitive effects The book is a detailed revision and refinement of the semantic theory of metaphor Taking into account pragmatic considerations and recent linguistic and psychological studies the author forges a new understanding of the relation between metaphoric and literal meaning She amply illustrates her thesis with sensitive and systematic analyses of metaphors found in literature philosophy science and everyday language

**The Semantics of Por and Para** Patricia Vining Lunn,1987 *The Semantics of Doublets Studied in Old and Middle French* Albert Douglas Menut,1922

**The Semantics of Suffixation** Edna Andrews,1996

**Metaphor in Context** Josef Stern,2000-11-08 Josef Stern addresses the question Given the received conception of the form and goals of semantic theory does metaphorical interpretation in whole or part fall within its scope The many philosophers linguists and cognitive scientists writing on metaphor over the past two decades have generally taken for granted that metaphor lies outside if not in opposition to received conceptions of semantics and grammar Assuming that metaphor cannot be explained by or within semantics they claim that metaphor has little if anything to teach us about semantic theory In this book Josef Stern challenges these assumptions He is concerned primarily with the question Given the received conception of the form and goals of semantic theory does metaphorical interpretation in whole or part fall within its scope Specifically he asks what if anything does a speaker hearer know as part of her semantic competence when she knows the interpretation of a metaphor According to Stern the answer to these questions lies in the systematic context dependence of metaphorical interpretation Drawing on a deep analogy between demonstratives indexicals and metaphors Stern develops a formal theory of metaphorical meaning that underlies a speaker s ability to interpret a metaphor With his semantics he also addresses a variety of philosophical and linguistic issues raised by metaphor These include the interpretive structure of complex extended metaphors the cognitive significance of metaphors and their literal paraphrasability the pictorial character of metaphors the role of similarity and exemplification in metaphorical interpretation metaphor networks dead metaphors the relation of metaphors to other figures and the dependence of metaphors on literal meanings Unlike most metaphor theorists however who take these problems to be sui generis to metaphor Stern subsumes them under the same rubric as other semantic facts that hold for nonmetaphorical language

History, Culture, Metaphor Wojciech Wrzosek,1997 **Creation**

**Language in Romans 8** Gregory P. Fewster, 2013-04-04 Modern scholarship tends to understand Paul's use of creation language in Rom 8:18-23 as part of a commentary on the state of sub-human creation. This misguided position warrants an inquiry into the state of lexical study in New Testament scholarship. As a result, Fewster articulates a theory of lexical monosemy cast in the framework of Systemic Functional Linguistics. The model is applied to Paul's use of through a robust corpus analysis and investigation into the word's role within the paragraph contributes to the cohesive structure of Rom 8:18-23 and contra the majority of interpreters functions as a metaphor for the human body. **Semiotica**, 1987 **Semantics and Experience** Hoyt Alverson, 1994 Are there universal as well as culturally particular experiences and expressions of time? Hoyt Alverson questions the widely held anthropological assumption that temporal expression and experience represent little more than local cultural constructions. Drawing on extensive data from four widely divergent languages and cultures (English, Mandarin, Hindi, and Sesotho), he argues that people everywhere experience time in fundamentally similar ways. **Semantics and Experience** reveals not only how such expressions vary as a function of ideological and cultural differences but also how, despite these differences, they reveal a basic similarity that points to their origin in a pan-human approach to the construction and cognition of space. **Chinese Lexical Semantics** Meichun Liu, Chunyu Kit, Qi Su, 2021-07-25 This book constitutes the thoroughly refereed post-workshop proceedings of the 21st Chinese Lexical Semantics Workshop (CLSW 2020) held in Hong Kong, China, in May 2020. Due to COVID-19, the conference was held virtually. The 76 full papers included in this volume were carefully reviewed and selected from 233 submissions. They are organized in the following topical sections: Lexical semantics and general linguistics; AI, Big Data, and NLP; Cognitive Science and experimental studies. **The Journal of Philosophy**, 1991 *The Review of Metaphysics*, 1986
