Why Constitutions Matter:

Why Constitutions Matter Nils Karlson, 2017-09-04 As countries in the twentieth and twenty first centuries change from colonialist to independent rule or from a socialist to a democratic society the need for a written constitution becomes apparent Countries in the former Soviet Union Africa or nations once part of the British Empire face social economic and humanitarian problems as they experiment with democratic rule Such issues as clearly defining where sovereignty lies how much power is given to the people and what rights are possessed by a nation s citizenry are new to these countries While a constitution being a man made document is subject to interpretation and does not always delineate in a lucid framework its parameters for future generations it is clear that constitutions do matter This volume compiled under the direction of the City University of Stockholm is an important study on the significance of constitutions and constitutional law in a democratic society A number of scholars in law political science and economics have contributed to this volume They include James Buchanan Aleksander Peczenik Mats Lundstrom Joakim Nergelius Sverker Hard Niclas Berggren Peter Kurrild Klitgaard Wolfgang Kasper and Erik Moberg All add to the understanding of the intertwining roles of politics and the social sciences in a modern democratic state They explore why a constitution is essential the relationship between a constitution and a rational political system the democratic principle of majority rule why constitutional constraints are needed in a democratic state recent constitutional reforms in the United Kingdom the electoral system and its centrality in a democracy evolution in constitutional change competition within a federal structure and the connection between politics and economics *Why Constitutions Matter* is a fascinating and timely study of constitutionalism and will be of interest to students of politics law economics and sociology

Why Constitutions Matter Niclas Berggren, Nils Karlson, Joakim Nergelius, 2000 *Why the Constitution Matters* Mark Tushnet, 2010-01-01 A major legal scholar presents an empowering reassessment of our nation s most essential document In this surprising and highly unconventional work Harvard law professor Mark Tushnet poses a seemingly simple question that yields a thoroughly unexpected answer The Constitution matters he argues not because it structures our government but because it structures our politics He maintains that politicians and political parties not Supreme Court decisions are the true engines of constitutional change in our system This message will empower all citizens who use direct political action to define and protect our rights and liberties as Americans Unlike legal scholars who consider the Constitution only as a blueprint for American democracy Tushnet focuses on the ways it serves as a framework for political debate Each branch of government draws substantive inspiration and procedural structure from the Constitution but can effect change only when there is the political will to carry it out Tushnet s political understanding of the Constitution therefore does not demand that citizens pore over the specifics of each Supreme Court decision in order to improve our nation Instead by providing key facts about Congress the president and the nature of the current constitutional regime his book reveals not only why the Constitution matters to each of us but also and perhaps more important how it matters

Constitutions and Political Theory Jan-Erik Lane, 1996 Jan Erik Lane begins by examining the origins and history of constitutionalism the doctrine that the state must be regulated by means of a set of institutions that guarantee citizen rights and procedural accountability He then examines the structure of the state in order to identify the essential elements that constitutional institutions regulate Lane asks why constitutions exist and how they matter for society Finally he seeks out the requirements for a fair and democratic constitution by referring to three key concepts in political theory justice equality and the rule of law The book also offers a comparative survey of formal constitutional arrangements in different countries and an analysis of how constitutions develop in practice through the implementation of constitutional and administrative law in a country's courts
