Taking Life Torbjorn Tannsjo, 2015-08-03 When and why is it right to kill When and why is it wrong Torbjorn Tannsjo examines three theories on the ethics of killing in this book deontology a libertarian moral rights theory and utilitarianism The implications of each theory are worked out for different kinds of killing trolley cases murder capital punishment suicide assisted death abortion killing in war and the killing of animals These implications are confronted with our intuitions in relation to them and our moral intuitions are examined in turn Only those intuitions that survive an understanding of how we have come to hold them are seen as considered intuitions The idea is that the theory that can best explain the content of our considered intuitions gains inductive support from them We must transcend our narrow cultural horizons and avoid certain cognitive mistakes in order to hold considered intuitions In this volume suitable for courses in ethics and applied ethics Tannsjo argues that in the final analysis utilitarianism can best account for and explain our considered intuitions about all these kinds of killing

Leading a Worthy Life Leon R. Kass, 2020-06-09 Most American young people like their ancestors harbor desires for a worthy life a life of meaning a life that makes sense But they are increasingly confused about what such a life might look like and how they might in the present age be able to live one With a once confident culture no longer offering authoritative guidance the young are now at sea regarding work family religion and civic identity The true the good and the beautiful have few defenders and the higher cynicism mocks any innocent love of wisdom or love of country We are supercompetent regarding efficiency and convenience we are at a loss regarding what it is all for Yet because the old orthodoxies have crumbled our interesting time paradoxically offers genuine opportunities for renewal and growth The old Socratic question How to live suddenly commands serious attention Young Americans if liberated from the prevailing cynicism will readily embrace weighty questions and undertake serious quests for a flourishing life All they and we need is encouragement This book provides that necessary encouragement by illuminating crucial and still available aspects of a worthy life and by defending them against their enemies With chapters on love family and friendship human excellence and human dignity teaching learning and truth and the great human aspirations of Western civilization it offers help to both secular and religious readers to people who are looking on their own for meaning and to people who are looking to deepen what they have been taught or to square it with the spirit of our times
