Why Terrorism:

Why Terrorism Works Alan M. Dershowitz, 2003-08-11 One of America's most distinguished defenders of civil liberties presents measures that will prevent terrorism and still uphold our democratic values. The greatest danger facing the world today, says Alan M. Dershowitz, comes from religiously inspired, state-sponsored terrorist groups that seek to develop weapons of mass destruction for use against civilian targets. In his newest book, Dershowitz argues passionately and persuasively that global terrorism is a phenomenon largely of our own making and that we must and can take steps to reduce the frequency and severity of terrorist acts. Analyzing recent acts of terrorism and our reaction to them, Dershowitz explains that terrorism is successful when the international community gives in to the demands of terrorists or even tries to understand and eliminate the root causes of terrorism. He discusses extreme approaches to wiping out international terrorism that would work if we were not constrained by legal, moral, and humanitarian considerations. And then, given that we do operate under such constraints, he offers a series of proposals that would effectively reduce the frequency and severity of international terrorism by striking a balance between security and liberty.

Pre-University Paper from the year 2014 in the subject History America grade 15 Punkte course Wissenschaftsprop
deutsches Seminar The USA as a World Power on the Rise or on the Decline language English abstract This term paper gives a short overview on the War on Terrorism on how it has developed and what successes were achieved as well as what sacrifices had to be made. How did it affect America's position as the world's leading superpower? Did it strengthen it? Weaken it? Ruin it? Are the United States still a world power? I can hear you. The rest of the world hears you. And the people who knocked these buildings down will hear from all of us soon. President George W. Bush Ground Zero September 14th 2001

Terrorism and International Law, 1988 Terrorism and Counter-terrorism Thomas A. Imobighe, A. N. T. Eguavoen, 2006 Seven Africanist scholars from the African Strategic and Peace Research Group in Nigeria here address the threat of terrorism in the context of the global strategic climate. The study is against the background of the altered shape of the global security equation and the devalued utility of the notion of security through state-centric military preparedness. They posit that failure to grasp its exact nature is leading to the spread to parts of Africa hitherto regarded as relatively safe. Further, the adverse socio-political conditions on the continent have increased Africa's vulnerability. They examine areas where the experiences of other regions are relevant, providing both a regional and global context. Professor Thomas Imobighe is Director of the Centre for Strategic and Development Studies at Ambrose Alli University, Edo State.
