Emotional Heritage Laurajane Smith, 2020-07-20 Emotional Heritage brings the issues of affect and power in the theorisation of heritage to the fore whilst also highlighting the affective and political consequences of heritage making. Drawing on interviews with visitors to museums and heritage sites in the United States, Australia and England, Smith argues that obtaining insights into how visitors use such sites enables us to understand the impact and consequences of professional heritage and museological practices. The concept of registers of engagement is introduced to assess variations in how visitors use museums and sites that address national or dissonant histories and the political consequences of their use. Visitors are revealed as agents in the roles cultural institutions play in maintaining or challenging the political and social status quo. Heritage, Smith argues, is about people and their social situatedness and the meaning they alongside or in concert with cultural institutions make and mobilise to help them address social problems and expressions of identity and sense of place in and for the present. Academics, students and practitioners interested in theories of power and affect in museums and heritage sites will find Emotional Heritage to be an invaluable resource. Helping professionals to understand the potential impact of their practice, the book also provides insights into the role visitors play in the interplay between heritage and politics.

The Caliphs' Last Heritage Mark Sykes, 1915. In this book Lt Col Sir Mark Sykes sets out to correct what he felt were the misguided impressions people had of the Ottoman Empire in 1915. From his own visits to the region he felt that there is nothing in our daily private life or public life today which is not directly or indirectly influenced by some human movement that took place in this zone. He firstly discusses different periods from its history from the Roman and Persian influence to that of Muhammad and the introduction of Islam to Sulaiman the Magnificent's triumph in Baghdad. In this way Sykes hopes to impart to the reader the extent of the important role played by the Empire through time. The tone then changes and becomes more personal as the reader is granted access to the Colonel's own diaries and experiences in order to add more color and insight to the historical facts already relayed.
